WASHINGTON, April 8.—Forecast for twenty-four hours ending at 3 a. m. tomorrow: For Minnesota: Rain; southeasterly winds; warmer.

LEGAL NOTICE.

DULUTH, March 31, 1891.
DEAR SIR:—You are hereby notified that all debts and bank accounts of whatever nature due to the Duluth Evening Herald company have been duly transferred by order of the district court of St. Louis county to Emil Schmidt as receiver of the said company and belonging wholly and exclusively to such receiver, and you are hereby cautioned against paying any such debt to any person claiming the same adversely to the receiver, as such payment will be no protection or bar to a recovery of the same debt by the receiver.
Yours truly,
CASH & WILLIAMS,
Attorneys for Emil Schmidt, receiver of the Duluth Evening Herald.

SPREADING OUR OWN GARDEN.
Recent dispatches indicate that with the opening of spring certain radical changes will inevitably take place in a section of Minnesota which we have been in the habit of looking upon as peculiarly our own. Northern Minnesota is the backyard of our premises. We have vague ideas of boundless wealth of forest and mine, agricultural and pastoral resources, etc. But by as much as they are a part and parcel of our own special household, only located in the rear of the homestead, of course we have them and hold them. It is only a question of time when we will stretch out our hands and grasp the great treasures.

That anybody could seriously interfere with that portion of our preordained wealth never as much as occurred to us. There never was a better and more complete illustration of the maxim that what is everybody's business is nobody's. There is one corporation in Duluth, originated by Duluth men, designed to aid Duluth interests first, last and all the time, which, if it had been properly encouraged, as it eminently deserved to be, would now be realizing for us some of our dreams and anticipations in that region pre-eminently ours. This is the Duluth & Winnipeg railroad. It should have been Duluth's favorite child; as it is the company often wonders if it is entitled to the scant prerogatives of an ill-favored stepchild.

If we had been equal to an opportunity the Duluth & Winnipeg should long ago have become what it is destined to be, the chief and only air line between the vast Canadian Northwest and deep water at the head of the lakes. It is the one cardinal necessity of our present business situation. Yet apparently we are perfectly helpless in the premises. In the meanwhile it is worthy our attention that a railroad corporation which has been conspicuous for its animosity to our growth, is not merely casting longing eyes upon, but is actually about to invade our premises. This road has only one objective point in Minnesota, one of the twin cities of the Minnesota is the creator of all her greatness and Duluth has given her more than she ever returned.

Can't we afford to rally round our friends. The Duluth & Winnipeg road is before the legislature, not for a new grant, but for legal right to retain that which is morally its own grant. Such a grant would create a border of civilization twenty-five miles in width along that steel artery. It would mean 50,000 settlers within a radius of 100 miles of Duluth in three or four years. It would mean 25,000 additional inhabitants within our city in less than two years. It would vivify every avenue of trade. Two million dollars invested for this purpose, largely by some few enterprising men, would create the responsive touch of interest bearing values which would come from making this a productive property.

There is no chicanery, no scheming done in behalf of this project; everything is open and above board. Why should not we better ourselves immediately for the attainment of this great boon, or shall we stand idly by and lose the traffic and the development of the richest heritage of Minnesota, which by all laws of commerce and geography belong to us? Which shall it be? The time for decision is short.

THE VOTE OF CHICAGO.
In 1880, when there were eighteen wards in the city, Garfield carried Chicago, receiving a majority of 4661. This was a good test vote. Both parties were enough interested to come out in full strength. Garfield received 42,672 votes to 33,311 for Hancock. In 1888 Carter Harrison, democratic candidate for mayor, received 41,226 votes, a plurality of 10,263. The next

year, with a full republican vote, Blaine received 51,450 votes to 48,550 for Cleveland. In 1885 the democratic vote for Harrison for mayor was 43,352 and the republican vote for Sidney Smith 42,977. In 1888 the republican vote for governor in the city was 58,107, the democratic vote 65,912. In 1889 the republican vote for Roche for mayor was 45,328, a falling off of nearly 14,000 as compared with the year before. The democratic vote for Cregier for mayor was 57,840, a falling off as compared with the democratic vote in 1888 of a little more than 8000.

In 1890 the republican vote for Anthony, state treasurer, was in the enlarged city 63,308, the democratic vote 73,817, and the prohibition vote 1270. The republican vote for Gilbert, candidate for sheriff, was 67,823, for Lawler, democrat, 71,872. The total vote last year was 138,898. This year there were on the list 198,000 registered voters and the total vote was, according to The Herald's today's dispatches, about 141,000.

The result is as foreshadowed in this paper yesterday, Washburne wins, with Cregier and Harrison closely following. It is creditable to the honor of Chicago and is highly satisfactory from a republican point of view. All the bad elements of a great city were arrayed against him, divided, of course, while the better and law-abiding element was not unanimous. Had Washburne been defeated it would have been a misfortune not only for the World's fair city, but for all other cities that are interested in good government for the nation's representative city during the fair. His defeat would have been, also, the direct result of a split in the ranks of the republicans, by which wingwampy went over to Elmer Washburne.

THE GRAND ARMY.

The Herald yesterday contained some interesting information concerning the local history of the Grand Army, in a note regarding its anniversary meeting the evening before. The first post of the army was established twenty-five years ago Monday at Decatur, Ill. The order grew slowly at first, but as the ex-soldiers of the Union army felt the weight of years, their inclination to strengthen the ties of comradeship increased, and at the end of 1888 there were in the United States 60,000 members of the order. There are now 455,000, the department of Illinois alone having 32,700 members.

The order has reached its maximum strength, because the old soldiers of the war are falling out of the ranks of the living in greater numbers with each succeeding year. The men who entered the army at 35 are now 65, and even those who enlisted at 20 are now 50. Monday was the silver anniversary of the Grand Army of the Republic, and in truth there are more gray hairs in the heads of the veterans than there are brown or black. The "bright, brave boys" of the war are ageing fast, and of the half a million now in line not many thousands will live to celebrate the golden anniversary of the G. A. R.

Wheat is coming into Duluth elevators from the West at a rate much more encouraging than it was a year ago. There is now over 4,500,000 bushels in store, while daily receipts are such that by the opening of navigation there will be fully 5,500,000 in store. Thus, notwithstanding the fact that local mills are taking some thing over 60,000 bushels a week, far more than ever before. Navigation will open with empty coal docks, more flour in store than ever, with excellent prospects for a very large package freight traffic both up and down, and with 5,500,000 bushels of wheat in local store houses. Surely Duluth is doing its share toward furnishing traffic for the lake marine.

In Frank Leslie's Weekly for April 4 is a defense of the action of the citizens of New Orleans, written by John C. Michliffe, one of the leaders of the avengers. Judged by his words the course taken on that memorable day three weeks ago was not only justifiable but absolutely necessary, and The Herald believes it was necessary to the protection of the city.

The total enrollment of Duluth schools is about 4000, that of Superior 1633. This is in almost exact ratio with the population of the two towns, and shows how much alike the two places are in class of population, and how small a school attendance they have.

The public will be pleased to learn that the delay in starting work on the Union station has a cause, and that a sufficient one. According to expectation, however, work will begin on the train shed in a few weeks.

The persons who complain most about the speed with which our politics is going to the dogs are the persons who do not take the trouble to vote. This was shown in a good many elections yesterday.

"It is one thing to get newsboys here from outside and another to sell papers," said The Herald said last week. Its one thing to get boys here but its mother to keep them, it might have said.

Tariff Pictures.
New York Press: Yes, gravestones are dear in this country, and the magnificent piles of masonry which loom up in our great cities cost a good deal of money. And why? Read the answer in these black lines:

Masons or stone cutters in England, average daily wages, \$1.30 to 25 cities.
United States, average daily wages, \$3.75 to 4 cities.

In spite of this more buildings go up this side of the Atlantic.

The Row Boiled Down.

Washington Post: The condensed edition of the recent diplomatic correspondence will run about as follows:

To the Hon. James G. Blaine, Secretary of State: "Get a move on, yourself." Be pleased to accept, Mr. Secretary of State, the renewed assurance of my highest consideration.

To the Marquis Imperiali, Charge d'Affaires, Etc.: "Sent." Accept, sir, the assurance of my high consideration. BLAINE.
To His Excellency, James G. Blaine, Secretary of State: "Eva was rattled." Yours in haste, RUSSIN.

SEEN AND HEARD.

One doesn't have to visit old graveyards in Duluth in order to get quite a lot of news and gossip. A perusal of the death column of many of our wide-awake American newspapers will frequently reveal a name that appears in the obituary column of the Chicago Herald under the notice of the death of "Mary Helena, beloved child of Thomas and Ellen McAvoy (nee Whelan), aged 3 months."

The window was open.
The bed was drawn.
An angel flew in.
And our Marie was gone.

The poet, in putting the stanza together, was evidently too intent on making the even lines rhyme to have a care for the impression to be conveyed by them. One can see how in this beautiful spring time a Chicago window might be left open long enough for an angel, or even a real live burglar, to enter; but it does seem as if it were rather tough on the angel to insinuate that Marie couldn't bear to stay in that winged creature's presence. Joking aside, however, it does seem as if people who have attained their majority ought to possess enough common sense to do away with such foolishness as to insert a triquet after a death notice. The newspaper cannot be blamed for the tale is paid for just like an ordinary advertisement.

I yesterday heard a newcomer ask a friend what was the politics of Duluth—that is, what party predominated. I suppose his friend gave him the right answer. In case he didn't I will guarantee that the newcomer will quickly learn for himself. In national contests Duluth is undoubtedly sympathetic to the backbone in local campaigns the only politics is Duluthism. It fills the atmosphere and exudes from the pores of every man who has enough sense to think five minutes at a time. The man who cannot champion Duluth's interests, be he republican, democrat, alliance or prohibitionist, cannot gain the votes of this people. As a consequence this city is today one of the best governed in the country—a good place for all who want to advance. A more orderly municipality cannot be found in the Union, as the records of a most vigilant police will easily show.

Too much emphasis be taken in enforcing the provisions of the building inspection ordinance. This is most thoroughly emphasized by the condition of some of the costly buildings that have come up since the first inspector was appointed. The contractor is too apt to make all he can out of a job, and he needs to be occasionally balked in his parsimonious course. One of the good points that City Engineer Faler had was that he brought contractors to time, as his unpopularity with them bears witness. Unluckily Mr. Faler's strictness with contractors cut them out of many a dollar, but it proved a good thing for the city and was what a faithful official could not help doing. It is to be hoped that Mr. Faler's successor will fill the bill in this respect as well as in his.

UNCLE SETH'S SPRING FORM.

[Yankee Blade.]
Early every spring I meet
Either poetizer or bust;
For they both all my nature,
As hot water bites a tater:
I go off alone while
By myself and let her bile.

Tan't spring bitters that I need
Or more sulphur with my feed.
Or some of quack's stomach filler,
Sassafras or sap-parilla;
But just a chance to sling
Poetry out a-ting-a-ling.

All the hills and mountains high
Are a little like the hills 'tho' lower,
An' it perters the hills 'tho' lower,
An' they ain't much like flowers;
Natur' s'giles an' I must
Fitter poetize or bust.

Natur' s' father of the snow
Natur' s' mother of the fog;
Waiting for the grass to grow,
To come sprouting up like weeds,
Poetry's bilin' for while
I'll go off and let her bile.

Now all natur' is a rush
Tan't no sin for me to cuss;
Natur' wiggles on in meter,
An' I catch the general tester,
An' a child of natur' must
Fitter poetize or bust.

SOME AMUSEMENTS.

"The American Extravaganza company, which was alluded to in yesterday's paper as one of the strongest organizations which has ever been seen here, last night again gave the spirited performance of 'The Crystal Spheres' at a crowded house says the Pioneer Press of April 7. There is no doubt that the auditorium of the Metropolitan will be taxed to its capacity for the balance of the engagement. This is really the first opportunity that the public have had to see its full extent the resources of the new theatre of the Metropolitan. The magnificent system of lighting, together with the well drilled corps of machinists belonging to the company, permits a series of pictures which for brilliancy and effect have never been equalled in St. Paul. Moreover, the performance is beyond question the finest example of American extravaganzas ever seen anywhere.

Miss Marie Wainwright will appear at Temple Opera tomorrow evening in her superb presentation of 'Twelfth Night,' which was received with such exceptional favor last year. Miss Wainwright is supported by the same brilliant company, which includes Barton Hill, William F. Owen, Percy Brooke, Blanche Walsh and Louise Middleton. The performance will be a treat to all.

The 'Clemenceau Case' was presented at Temple Opera last night to a small audience. One evening in Duluth was enough.

AND NOW THE BRIDGE.

Board of Works, Having Fixed Lake Avenue and the Engineer, Will Now Start the Bridge.

Is Ideas as to the Costs and Assessments For the Canal Bridge, Not Tunnel.

The Probability Is That the Work Will Be Carried Along Very Shortly.

The idea of a ship canal tunnel has been abandoned by the city and the original project of a swing bridge substituted. Excessive first cost is the only reason for the throwing aside of the tunnel idea, the difference in the estimates for the two plans, nearly \$100,000, for the same accommodation, having proved too great an obstacle.

The board of works, having successfully closed two important engagements—the Lake avenue viaduct and the city engineer matter—is in a position to tackle the bridge, and has already rolled up its sleeves and waded in, so to speak. It is highly probable that the new bridge, on the plan of Alfred Boller, which provides for a swing of 200 feet, pier to pier, the swing turntable being located on the southerly side of the canal, built on the trifle into the stream, will be completed inside a year from this date.

According to Mr. Boller's plan, the structure will have railway tracks, foot walks and wagon passage and will be located east of Lake avenue, on the swing of the bridge being arranged to sweep over the comparatively inexpensive land on the lower side of the canal toward the lake shore.

By steam and will be arranged to move very quickly so that there can be no interruption of the lake traffic. This is a matter of grave moment, as it is expected the tonnage passing the canal will, even this year, be double any preceding season and this will be still further increased by the time the bridge is ready for use.

According to late laws the city is empowered to levy "half or more than half the cost" of bridge or tunnel on the property below the canal that is to be benefited. It is now proposed to levy about \$250,000 of the expense on these lots, being an average cost of \$50 a lot. As the taxes on this property is about double up its value, this is believed to be reasonable and fair. The total cost of the work will be \$400,000, and interest on the remaining \$150,000 will be easily made up.

THE UNION DEBATE.

Work Delayed Because of the Non-Arrival of Iron.

"Work was to have begun in March for the spring on the new Fifth avenue station," says Manager Vance, of the St. Paul & Duluth road, "but the contractors for the depot company have been delayed by lack of iron. They had all their plans ready to go ahead a month ago, but the first of the iron they wanted has not yet arrived. We understand it will be here in ten days or two weeks, when we will get a move on."

It will be necessary to start with the train shed and build that first, so you may expect the big shed will under way very soon. Probably the depot cannot be completed on contract time, but I haven't any doubt we shall be using it fall."

The railroad company is all ready to sign the contract for the lake avenue viaduct and will do so in a few days, but here to the delay of the iron people may hinder. It isn't a very extensive job, however, and I expect to see it done by July all right."

BOAT CLUB ANNUAL.

Duluth Club Elects Officers and Transacts Annual Business.

About forty members met in an appearance at the annual meeting of the Duluth Boat club at the Spalding last evening. Among other business transacted was the election of officers, the following being the list: President, T. W. Hoffman; secretary, H. D. Ferguson; treasurer, E. C. Jones; captain, L. E. Harris; secretary, H. D. Ferguson; lieutenant, E. W. Parsons; ensign, E. H. Smith; directors, Henry Nolte, C. J. Kershaw and W. B. Silvey. The boat houses were ordered painted and the salary of the secretary raised to \$200 per annum. It was authorized that prizes be offered for the best boat race, and that the club should purchase a new building site, as the present lease expires April 1, 1892, and a committee looking toward such change was appointed. It was decided that the club give a party, and the president is to appoint a committee on arrangements to take charge.

A piano and many other luxuries might be added to the club rooms, and a resolution was passed recommending the board of directors not to fear a little extravagance in that direction.

The D. P. & B. H. Feeder.

An officer of the Northern Pacific in the city today. "The grading is to be resumed in a few days," on the Duluth and Black Hills road from Franklin and Pierre, S. D. a distance of about seventy miles. Bonds will be issued by the latter town to pay for the construction of this division. The road was graded last year between Franklin and Aberdeen, about forty-five miles. It is claimed that the track on the entire line will be laid this year. The Northern Pacific will operate the road when it is completed."

Duluth Turn Verein.

The dramatic scene of the above society will present to the public next Sunday evening, April 12, the four-act comedy, "Der Raub der Schilke," at Turner hall. Tickets 50 cents, for sale at Max Wirth's and W. F. Kugler's drug stores. After performance street cars are waiting.

The Chamber to Meet.

President Bullitt called an executive session of the chamber of commerce for 10 a. m. tomorrow, at which several important matters that cannot be discussed just now will come up. The chamber will also probably take steps to urge the legislature to cede to the general government the site of the proposed government building at Duluth.

The News Company's Annual Meeting.

The Duluth News company held its annual meeting yesterday afternoon, electing the following directors: O. H. Simons, O. P. Stearns, G. G. Hartley, L. Mendenhall and R. E. Myers. Mr. Simons was made president, vice Clinton McKell, and R. E. Myers succeeded himself as secretary.

Peoples Savings bank, the only exclusive spare money bank at the head of the lake.

General Bread They Cry for Bread!

A million loaves, not enough for one city! Five millions, not enough for one state! Fifty millions, not enough for this country a single day, yet often what sour, soggy stuff it is nevertheless it is eaten, and the result is dyspepsia, biliousness, sick headache, impoverished blood, pimples, blotches and scrofula. For the correction of all this, and as a general tonic for the system, taken Golden Medical Discovery prepared by Dr. Pierce, of Buffalo, its action is like a charm, a "benefaction that follows after prayer."

A remedy for stomachic and liver troubles, as well as a specific for throat and lung disorders. It is guaranteed to benefit or cure, or money refunded.

The undersigned desire to express their heartfelt thanks to the Plumbers, Steam and Gasfitters union, for the brotherly kindness and attention devoted to our deceased son, Lewis, during his late illness, death and burial, and for the tender sympathies shown by the members of the above union, as well as by his late associates and superiors towards the grief-stricken members of the bereaved family.

JOHN P. LARSON.
MISS ELLEN LARSON.

Stryker, Manley & Bock.

Invite every person desiring a loan to call at their office, where applications receive prompt attention. If your security is satisfactory, there is no delay in closing the loan. We have the money on hand to place at low rates of interest. In real estate you can make a larger profit by investing your money now. See our list of bargains in all localities. Our offerings are in city and acre property cannot be beaten.

The object of fire insurance is protection. Why not be consistent and insure in companies with large capital, those that have been tried? We represent the largest, oldest and strongest companies. 5, 6, 7 First National Bank building.

Peoples Savings bank, the only exclusive spare money bank at the head of the lake.

A New Line.

In the rapid development of the great Northwest and consequent exchange of freight and passenger traffic between it and Michigan, Minnesota and the East, the advantages of the Flint & Pere Marquette railroad deserve prominence.

Two lines of steamers are operated all the year between Manitowish and Milwaukee, Wis., and Ludington, Mich. (once called Pere Marquette). From Ludington road extends across Michigan to Port Huron, Detroit and Toledo, Ohio, intersecting roads running to the straits with lower rates of freight and lower passenger fares than all rail lines.

Write St. Paul agency for any information desired.

Children Cry for Pitcher's Castoria.

Adapted to the wants of all Peoples Savings banks of Duluth.

102 PALLADIO.

CAUTION W. L.

CITY BRIEFS.

Martha Pattison was yesterday elected mayor of Superior by about 150 majority. Bingham, who pitched for the Duluths in 1887, is conceding the Harvard time season.

The Assembly holds forth at the Spaulding tonight for the first time in many months.

The Young Men's club gave one of their enjoyable parties at Temple hall last evening.

The wheat rate to Buffalo is now quoted at two and a half cents, with nothing whatever doing.

A hot supper will be served at the First Methodist church on Friday evening next from 6 to 10, in pink style.

There is no water in sight from Two Harbors, looking down the lake, and the prospects for an early opening of navigation are negligible.

The annual meeting of the stockholders of the Phillips' Sinking Machine company was held yesterday. Its business was merely nominal.

President White, of the board of education, sent the bill to St. Paul last night providing for annexation of the schools of Duluth and West Duluth.

A small stove used by the cook in the kitchen of the hotel where the explosion occurred yesterday, exploded. The blaze was extinguished before any damage was done.

The Imperial mill is running entirely on orders for May shipment. The demand for flour is excellent on account of the upward tendency of the wheat market.

Messrs. Gardner and Lutz, of Duluth will wrestle at the St. Paul Y. M. C. A. athletic exhibition tomorrow night. The St. Paul Dispatch says they "are as good as any in the country."

There has been filed the report of the commissioners in condemnation proceedings for the extension of Lake Avenue from the lower end of Lower Duluth to the government reservation at the southern end of Minnesota Point. The total damages were \$10,375.

The attorneys in the Hyde & McDonald land contest case are having a difficult task to settle on a date when the hearing shall be had. There is no end blood between them, but they have so many engagements that conflict that it is next to impossible to find an open date.

The Lakeside Land company has sold its excellent hotel at Lester Park to Mr. Lloyd of Tusculum, Mich., brother of Captain Joseph Lloyd of Duluth. Mr. Lloyd paid something less than \$15,000 for the property, and will make a number of improvements. He is said to be an excellent hotel man, and will take charge May 1.

Norwegian cod liver oil at C. J. Tette's drug store, 1803 West Superior street. Mortgages bought. Collateral and short time loans wanted.

CLAUDE & FRISVOLD. Anyone wishing to undergo the Kodak's lymph treatment for consumption must apply before Thursday, 9 p. m., at St. Mary's hospital or at Dr. Brunet's office.

We buy notes and short time paper. Also purchase money mortgages. We want at once a mortgage for \$15,000 on improved and centrally located property. CLAUDE & FRISVOLD.

402 Palladio building.

ON THE OTHER FOOT.

The Shoe of Suspicion in the Wheat Stealing Cases.

While the name "Egan" was plain enough on the register of the Clarendon hotel this morning, the tail piece, "sergeant-at-arms, state house of representatives" was decidedly misty and could hardly be read at all. Mr. Egan is not a member of the legislature, nor is he a member of the state house of representatives.

But that doesn't matter. He was here on business, and important business at that, and business men will be surprised to find that the individuals who have been making statements that large quantities of wheat have been stolen from Duluth, are to be heard of in the city of the elevator managements.

The house investigating committee has gone far enough in its questioning to see that there has been no wrong nor thought of wrong on the part of those who were accused. So it has been taken another tack. Now the august committee proposes to make it warm for the fellows who have been giving the information on which the investigation was originally based. It is proposed, so said sergeant-at-arms Egan, to bring up these people with a sharp turn and learn why they have said what has been said to two willing, glib legislators. Some of these delinquents are of Duluth, and some hail from other places, but there is apparently to be fun for all.

LYCEUM FRISKS.

Manager J. T. Condon has come back from St. Paul and Minneapolis, where he found the slow business of the Lyceum. He says that "The Crystal Shipper" is without doubt the finest spectacular performance ever seen in any part of the West. It has been decided to make the rates for the best seats in the new Lyceum \$1.25. The theater is arranged on the English plan and what is known as the prospect in Temple Opera will be called the pit. Pit seats will be the same as those in Temple Opera—\$1. The first balcony, which will contain the most luxurious and best arranged seats in the house, only 250 in all, will sell for \$1.25. The second and third balconies will be 75 and 50 cents respectively and the gallery at 25 cents.

Will Make a Good Day's Pay.

It is at last the vessel agent's turn to make a little money. D. A. Christie, of the Lake Superior Transit Co., and other line representatives were summoned this morning to appear before the legislative committee at St. Paul, in order to tell what they know concerning the alleged irregularities of a few years ago in grain hauling at this point. Of course the vessel agents won't know two cents worth about it, but they will nevertheless get their fee of \$1 and twelve cents mileage one way. As the distance is 155 miles and they always ride dead head they will make just \$19.60 for one day's work.

Until further notice all lots in the London addition belonging to the Lakeside Land company are withdrawn from the market.

PERSONAL.

R. M. Fulton returned from New York city.

John Talbot, of Winnipeg, is a guest at the Mercantile.

Geo. Johnson, the letter carrier, is laid up with the grip.

John Magnus has returned from an eastern trip of two months.

Hugh Dunn took the South Shore last night for New York city.

Mrs. D. A. Reed and children leave tomorrow for a visit at Leroy, N. Y.

Superintendent of Schools Deuel has been on the sick list for several days.

A. B. Grippitt and F. B. Morrill, friends of A. C. Bachelier, are at the St. Louis.

N. B. Thayer, land attorney, is out once more after suffering for some weeks with a broken leg.

F. J. Cropsey is a very popular Minneapolisian who has recently decided to make Duluth his home.

William Meis, who has recently established in business here, left last evening for the East to secure help.

Mr. Smith, secretary to General Manager Carpenter, of the Duluth & Iron Range, is incapacitated by the grip.

W. H. Burke has disposed of his Lakeside home and will early next week take his family and goods to Manistee, Mich.

General Agent Geo. M. Smith, of the Omaha, will tomorrow take his departure for South Carolina to bring his family home.

S. L. Selden has gone to Atlanta, Ga., having been called there by the serious illness of his brother-in-law, George Dickerman.

E. D. Cable left today for a month's visit in Berwick, Ill. Mr. Cable has just recovered from a severe attack of typhoid fever and goes East to recuperate.

W. E. Richardson and Frank A. Day have gone to Dodge Center, Iowa, to attend the annual meeting of the Winona Stone company, of which Mr. Day is president.

About twenty friends pleasantly and completely surprised Mr. and Mrs. E. A. Matrix at their home in the west end Monday evening. An enjoyable time was had by those present.

Mrs. Fred Gilbert writes that the climate of St. Augustine is having a wonderfully recuperating effect and that she will probably be able to return home about May 1.

She has sent her husband two beautiful representations in oil of Florida scenery executed by herself.

Practical Education.

A Practical Talk to the Scholars of Duluth's High School.

In pursuance of a policy outlined by Superintendent Denfeld, of our public schools, there was inaugurated this morning a series of addresses on timely topics delivered before the high school class.

Mr. Olaf Edlund was the first speaker, to be followed each succeeding Wednesday morning by men chosen from the ranks of our professional and business classes.

The theme for this morning proved to be "Practical Education." Mr. Edlund spoke somewhat fully of the various kinds of education prevailing from ancient Japan, through the epochs of Hindoo, Greek, middle ages and modern European and American epochs of culture.

Then taking up the essential requirements of the every day demands made on the educated man, he showed how the educational ideals of the past, however noble, did not answer the necessities of the present. He made a hearty plea for the future enlargement of the manual training school system, described briefly its successful introduction elsewhere.

The speaker pleaded for the devotion and mastery of at least one mechanical trade on the part of all the graduates as one of the surest preservatives to success in practical as well as professional pursuits.

He made several local illustrations of the valuable assistance that young men through the epochs of scientific and mechanical pursuits. The address lasted for about forty-five minutes and appeared to be heartily enjoyed by the young audience.

MANY IMMIGRANTS.

All Eastern Trains Through Duluth are Bringing Them.

A visit to the immigration offices of the city revealed the fact that there is an unusual amount of emigrant travel into the Northwest this spring, especially through Duluth. Just why the foreigners should be flocking this way, so soon after the financial crisis, cannot be explained, unless it be that the Northwest offers the best inducements to be found in the whole country.

Every morning the South Shore train brings a large number of immigrants, chiefly from New York. The Germans form the greater part of the contingent, but there is also quite a sprinkling of Swedes, Finlanders and Russians. Very few of them seem to be destined for the farms, the greater number choosing city life in Minnesota and Detroit to that of the country. The Russians for the most part settle in Duluth.

"They are so thrifty," said one agent, "and they are not here long before they acquire a good sum of money. Their favorite occupation seems to be the collecting of junk."

Very few of the newcomers pay for their tickets with their own money. In nearly every instance the tickets are purchased by friends in this country and sent to the old country. Rates have risen since the first of the month, and are now higher than they have been in over a year. The old rate was \$45 from Göttingen and Mohnd, Sweden, while the new one is \$60.50. The new rate from Stockholm, Sweden, is \$56.50. Five dollars of the increase in the Göttingen and the Mohnd rate goes to the steamship companies and \$2.50 to the railroads.

C. H. Graves & Co. are offering special inducements to parties wishing to build in Endion.

THE MARKETS.

A Day of Great Strength in Wheat, Other Markets.

This was another day of great strength in wheat. The opening was higher and with a temporary set back there was a good advance during the day. The demand here as elsewhere was large and was for the first time. July was active for the first time. There was a good export business. One dispatch says the bulk of recent active loads worked at New York and 100,000 lb elsewhere and another that thirty-eight loads have been worked for the continent. Bractes's visible export showed a decrease of 87,000 bu east of the Rocky mountains. The wheat acreage in Michigan, Indiana, Illinois, Missouri, Kansas and Ohio increases this year 1,450,000 acres over last year. The strength was kept up to the close, under growing reports of active business and a continued local demand. The latest report was that eighty loads for export had been worked.

Cash 1 hard fresh in store sold at \$1.04 1/2. Regular closed at \$1.04 1/2. Cash 1 northern closed at \$1.01 1/2. Cash 2 northern closed at 98 1/2. April 1 hard closed at \$1.04 1/2 and 1 northern at \$1.01 1/2. May 1 hard opened at \$1.07 1/2, advanced and closed at \$1.08 sellers. May 1 northern opened at \$1.05, eased off 1/2, closed at \$1.05 1/2 bid. June 1 hard closed at \$1.09 1/2 sellers. 1 northern sold at \$1.06 and closed at \$1.06 1/2. July 1 hard opened at \$1.09 1/2 and closed at \$1.10 1/2 nominal. 1 northern sold at \$1.08 and \$1.08 1/2 and closed at \$1.07 1/2 nominal.

New York Money and Stocks.

New York, April 7.—Money on call loaning at 2 1/2 cts per cent. Exchange steady; posted rates, 48 1/2 cts; actual rates, 48 1/2 cts for sixty days, and 48 1/2 cts for demand. Government's steady currency, 6 1/2 cts; 12 bid; 4 1/2 cts; 12 bid; 4 1/2 cts do. 102 bid.

The stock market was less active. The sales of the day were chiefly in the northern Pacific preferred, St. Paul, L. & N., the sugar stocks, Burlington and Chicago Gas furnished the most trading. The market opened weak and fractionally lower under the lead of the railroad stocks, which were pressed for sale on the announcement that Mr. Villard had lost his financial backing, but after the first few minutes the market steadied and a subsequent moderate buying gave prices a turn upwards.

Chicago Live Stock.

Union Stock Yards, Ill., April 8.—Cattle.—Receipts, 11,000; strong and shade higher. Hogs.—Receipts, 26,000; firm for good sort; poor and common neglected. Heavy, \$4.65 @ \$4.75; mixed and medium, \$4.57 1/2 @ \$4.70; light, \$4.50 @ \$4.55. Sheep.—Receipts, 7,000; steady.

Foreign Markets.

London, April 8.—Grain markets opened this morning in a firm. At Liverpool wheat was quoted as strong and 1 1/2 higher; corn firm and 1 1/2 higher. Wheat off coast was 10 1/2 cts; barley, 10 1/2 cts. Wheat and corn on passage were steady and firm. Wheat in the United Kingdom was very old. French markets were generally doer.

Chicago Market.

Chicago, April 8.—Following is the close: Wheat, May, \$1.06 1/2; July, \$1.04 1/2. Corn, May, 67 1/2; July, 64 1/2. Oats, May, 54 1/2; July, 51 1/2. Pork, May, \$12.77 1/2; July, \$12.20. Lard, May, \$6.09 1/2; July, \$6.20. Ribs, May, \$6.22 1/2 @ \$6.25; July, \$6.37 1/2.

NEWSBOYS TIRED.

The Chicago Importations Couldn't Stand the Strain.

The howl of the four Chicago newsboys brought here by non-union paper men, and their position of opposition, is now a thing of the past.

The whole "twenty-five" decided that they would quit trying to sell newspapers and do something else until such time as the non-union papers should withdraw from their position of opposition.

The four boys were brought here on agreement that their bond be paid and they be given papers freely. All four thought this a snap and expected to sell papers, but have dissimally failed and have not made a dollar a day between them.

Fluid Dispensers.

Several dispensers of the liquid that intoxicates have gotten themselves into trouble. The police have had a new detective making the rounds in disguise, and they think they have some strong cases.

Victor Berggren, Wm. E. Lawrence, Jacob Stebler, Henry Savage and Wm. N. Pollock, who, according to report, have been evading the law by the "chili" racket, were this morning arrested and arraigned before Judge Morrison on the charge of selling liquor on the sabbath. They refused to plead and the court ordered a plea of not guilty entered and set their cases for the 14th.

Cora Carey, Blanche Spencer, Belle Moody, Frankie Young and Belle White, keepers of disreputable houses, were charged with selling liquor without a license. The cases against the first three were dismissed on account of technicalities. Belle White and Frankie Young will be examined on the 9th.

LEGAL NOTICE.

DULUTH, March 31, 1891.
DEAR SIR:—You are hereby notified that all debts and book accounts of whatever nature due to the Duluth Evening Herald company have been duly transferred by order of the district court of St. Louis county to Emil Schmidt as receiver of the said company and belonging wholly and exclusively to such receiver, and you are hereby cautioned against paying any such debt to any person claiming the same adversely to the receiver, as such payment will be no protection or bar to a recovery of the same debt by the receiver.
Yours truly,
C. A. WILLIAMS,
Attorneys for Emil Schmidt, receiver of the Duluth Evening Herald.

DILLON'S FALSE POSITION.

In an interview with reference to his retirement from active work as the editor of the Forum, Dr. Lovett S. Metcalf recently let drop some remarks that were at least interesting, if not surprising. He stated that the Forum "sometimes pays \$1000 to \$2000 for 3000 words. It is by no means the men whose articles are the most valuable who receive the most money." In connection with this statement it is not out of place to say a word or two with regard to an article by Sidney Dillon, the new president of the Union Pacific, in the current issue of the North American Review, in which he treats of the relations between the railroads and the people. It was evidently not the merit of Mr. Dillon's article that gained for it admission to the pages of the magazine, but the fact that people would be more likely to read something by a well known man like Mr. Dillon than by a more credible or more honest person of whom they know very little or nothing.

The president of the Union Pacific makes the sweeping assertion that "as one result of competition we may instance the freight charged upon wheat from Chicago to New York by rail in 1868 and in 1890. In 1868 it was 42.5 cents per bushel; in 1890, 14.21 cents. This illustrates the beneficial effect of competition between rival lines, both to producers and consumers; but the benefit does not stop here. This competition brought down the charges by all water (lake and canal) from 22.75 cents in 1868 to 5.85 cents in 1890. It will not answer to argue that the water rates have reduced the rail rates. Shippers prefer rail transportation; grain arrives in better condition, in shorter time, with smaller insurance rates; bills of lading are much more negotiable and interest charges are lessened."

We do not know whether Mr. Dillon's figures are correct. Grant that they are, what then? Why, Mr. Dillon has turned knave or fool; in either case he is not a proper person to manage other people's property. It will be noticed that he charges the reduction of all freights to competition between railroads, allowing nothing for the thousands of improvements in track and rolling stock that have been made during the past twenty-five years; allowing nothing for the new methods in the operation of railroads; allowing nothing for the improvements in our waterways by which a deeper draft could be secured; nothing for the new methods by which ships could be built at a less proportionate expense to carry a much greater tonnage; nothing for the competition between lake vessels; nothing for the latest dock and elevator facilities, which make it possible to load a vessel holding enough wheat to require ten trains of twenty cars in less time than it would take to load one train. The statement that grain shippers prefer the railroad has no foundation in fact, for the vessel can keep the grain in as good condition as can the railroad, and can, and does, deliver it at its destination in much shorter time.

Mr. Dillon is right farther on his article where he says that legislation is hampering the railroads in some parts of the country. But he fails to mention the fact that stock speculators like himself furnish the prime cause for the legislation. He complains that railroads are making much smaller dividends nowadays than formerly, omitting to say that the custom of watering the stocks has taken such a stronghold on railway speculators that it is a wonder the roads can earn a cent on their fictitious capital. Railroad competition is doing a great thing for Fargo, for instance, when the Milwaukee & St. Paul can afford to haul coal 300 miles farther than the Northern Pacific for the same rate as the latter road puts in force

from Duluth. If Fargo only had a water route from the East the rates would drop on account of rail competition, according to Mr. Dillon's theory.

EIGHT HOURS FOR ALL.

On May 1 every large city in the United States men affiliated with the American Federation of Labor will begin to enforce their demands for a work day of eight hours. At this time last year union carpenters were successful in their attempt to secure a shorter workday in over 300 cities, in some getting eight, in others nine. Duluth being among the latter. This year the house painters and coal miners will make the same demand and attempt to enforce it by striking. There are about 25,000 house painters who will be affected by this expected change, but the great fight will be in the coal fields of Pennsylvania, Ohio, Illinois and in the South, especially in Alabama. Through their unions 110,000 coal miners have pledged themselves to demand and enforce their demand.

For ten weeks the most active preparations have been under way for the time when the fight between the "coal barons" and "errant knights" will meet on the coal field of battle. President Gompers, of the Federation of Labor, has returned to New York from his journey in the West and through the coal fields, where he personally inspected the ground and became acquainted with the lieutenants, who will give the word, it is thought, for the greatest strike ever begun in this trade. Mr. Gompers has also raised money enough to go a great way toward the relief of the thousands who will be brought to utter destitution by the almost total cessation of a great industry that is sure to follow the demand.

THE TAX ON ORE.

In its review of the ore situation, the Cleveland Iron Review sounds the note of lower prices at northern furnaces, in order to meet the disastrous competition of cheap Southern iron. It shows that the Ohio and Pennsylvania furnaces, which are the heaviest customers of the Lake Superior iron miners, must have cheaper ore, cheaper coke, and lower railroad rates on their product, to hold their own against Southern iron.

The ore is now placed on cars at the mines now at about as low a figure as possible, and coke cannot go much lower, hence the looked for reduction in cost to the furnaces must come mainly through concessions from the transportation companies. The railway and vessel lines may be able to do something to render the position of these furnaces easier, but they cannot do very much. It is easy to see, therefore, that there is no longer "big money" in the iron business for anybody, that it is rapidly being brought down to led-rock prices by the competition it has to meet from the South, and that every cent that is added to the cost of producing a ton of iron in the north widens the field within which Southern iron can find a market.

In other words, if the iron mining industry is to continue a great and growing interest in Minnesota, if it is to fulfill our hopes and our expectations, it must not be crippled by legislation. Any important change in the rate of taxation of iron ores will be disastrous and it is a happy thing that the bill for a change in the taxation of mining properties is, as Senator Daugherty lately expressed it, "in good hands." Let us hope it will stay there.

FIRMNESS IN VALUES.

The Buffalo Express, in an editorial article on the subject of real estate, makes the following happy illustration of the difference between legitimate and speculative prices:

A sheet of paper laid on a solid floor will stand any weight. Lift it above the floor and it will bear scarcely any weight. That is the way with land prices and land values. So long as the one rests firmly on the other there is no danger of a collapse.

In Duluth prices and values have kept together pretty well ever since 1872, when there was a speculative boom and when values and valuations moved a most unfortunate distance apart, and unhappiness resulted to thoughtful investors. Of course there are localities where land is probably higher than it should be, but they are few. May Duluth have no boom? Booms do not build cities, and high-priced unproductive real estate does not tend toward home building or a broadening of the city's best foundations.

While the mortality in Chicago appears to be on the decrease, the mortality record shows that the epidemic of grip is increasing in its force. For the twenty-four hours ending at noon yesterday there were 178 deaths in that city, a decrease of seventeen from the day before, but there were nineteen cases in which the grip was given as a contributing cause of death. This is the highest number recorded.

The London Standard, in a review of the agricultural outlook, estimates that the deficiency in the wheat crops of France and Russia will reach the vast amount of 20,000,000 quarters or 160,000,000 bushels. It is this that is sending wheat slowly upwards, and is pushing skyward the American farmer's produce.

The public library yesterday sent off an order for some 400 new books. In the report of the library board made to the council this week, it was stated that the board expected to purchase 5000 volumes in the next twelve months. This will be an average of about 100 new books a week, an increase that is equalled by but few public libraries in this country.

This day is green in the memory of all G. A. R. men. It is exactly twenty-six years ago today since Robert E. Lee surrendered.

Peoples Savings bank, the only exclusive spare money bank at the head of the lakes.

Children Cry for Pitcher's Castoria.

Adapted to the wants of all, Peoples Savings bank of Duluth.

SEEN AND HEARD.

The Marietta Iron Works company has just received from its old works a big piece of machinery that has a history. It is a tremendous lathe, and the company still have it for turning up hand mill wheels, though it is thirty years old. It is the identical piece of machinery on which the lathe work of the first monitor, the original Ericsson class, was cut on a raft, was done. It was at that time the property of the government and was purchased by Mr. Prescott some years later and moved to Marietta where it has been until it was brought to Duluth. It is one of the largest and most powerful machines of the kind in the West.

"I was always told," said a reformed smoker, "that I could not give up the cigar habit, which I had indulged in for twenty years; but I resolved one day to give it up, and have kept the resolution for two years. If you want to be sure that you have any mind left, or any self-control, just do as I did, and if you can't keep your resolution you may be sure that you have not the capacity of self-control, and are on the way to imbecility. I treated my mind by resolving that I would not smoke, and I have stood the test, and I know that my will has grown stronger in consequence. It is a great thing to have a will that is under the control of the judgment."

The resignation of Senator Edmunds, of Vermont, and the appointment of ex-Governor J. Gregory Smith to take his place, which I noticed in last night's Herald as a possibility or probability, is of considerable local interest. Senator Edmunds, as most Herald readers—and that means all Duluthians—are aware, is the property owner in a fight before the United States supreme court against the Franchise claim, and, as he said in Washington yesterday, he intends to devote his time to his specialty. J. Gregory Smith was first president of the Northern Pacific road long before the panic of 1873 and during the time when the road was in the heyday of first prosperity and had more money than it could use. Mr. Smith, then governor of Vermont, was one of the officers about whom a good many stories of mismanagement of speculations and of what the press then called "wasting the money of widows and orphans," were told. He retired from active management of the road in '73, I believe, but still has, as I am told, a good slice of Northern Pacific stock. He is now a man of about 74 years of age, and has been a great one for a congressionalist. He built the church of that denomination at Brainerd, put several hundred dollars in the church here as well as large amounts at other places along the road.

Talk about extravagance—those early days of the Northern Pacific were flush times, when the money was rolling in from the hoarded savings of poor New England preachers, from widows with little to invest, from children whose all was under their feet as crumblers, as well as from bankers, capitalists and the rich. There was nothing to check the spendthrift ideas of the early officials and the line along to the western boundary of this state was marked by costly depots where mahogany counters were allowed by heavy brass fittings, and where everything from the same boards to the water tanks were marked by a desire to spend. Later, when these things began to look like grim sarcasm, and the road was a streak of rust, the extravagance was hidden by cheap paint.

Officials who inspect the Italian immigrants arriving at New York, nine-tenths of whom are of the male sex, find that nearly all come here with the expectation of making money that will enable them to go back to Italy and live there. The lists of the passengers who have gone from here to Europe during the decade of Italian immigration give evidence that the hopes in which the Italians indulge when coming to America are rarely realized. Very few Italian names are to be found on these lists. Many of the Italians of Duluth have often told me that while they intended originally to return, they would not now live anywhere but in America. There was quite a boom last year, among these people for visiting their old homes, and I recall at least a dozen from among my own Italian acquaintances, who went. All but one or two came back thoroughly impressed with the idea that they would not live in Italy again under any circumstances.

Marie Wainwright. Miss Wainwright will be seen at the Temple theater on Thursday, in her celebrated scenic production of "The Night," and on Friday in the famous comedy, "The Honeymoon." She brings all the splendid scenery, costumes, furniture and appointments used during the New York run. Her engagement will be the chief legitimate event of the season.

The New York Sun said: "In presence of a handsome audience last night, Marie Wainwright won a capital triumph as Viola in 'Twelfth Night.' It is an achievement as has been known no parallel in her own worthy career, nor has it been often equaled by earlier personations of this most lovable, most pensive heroine of Shakespeare. An intelligent, well studied and picturesque portrayal of the role had been counted upon for this and been assured, but surely there has been no full hint of this marked success. Too few Violas whom the memory can cherish have come upon our stage since the tender and imperishable picture of the gentle manager put before us by Neilson. It is not easy to forget the sympathetic Viola of Ellen Terry, or the maturely earnest one of Helen Modjeska, but Miss Wainwright has told us to anew the silent pathos, the womanly devotion, and the delicate wit of constant Caesar, and she has given to the tale a fresh charm of manner and a subtler expression of feeling."

"The Crystal Slipper." The St. Paul News of yesterday said: "At the Metropolitan Opera house last night 'The Crystal Slipper' again crowded the auditorium with an enthusiastic audience. It is conceded by everyone who sees it that it is the finest entertainment of its kind that St. Paul has ever witnessed. This, however, has been the verdict wherever the piece has been played. It has already been given over 850 times, and yet the scenery and costumes look as fresh as upon the first day of the production."

One span young horses for sale cheap. Eighth street and Thirteenth avenue east. STRATE BROS. & Co.

Adapted to the wants of all, Peoples Savings bank of Duluth.

CITY BRIEFS.

Honors orchestra gives a concert Saturday night at the Bellini.

The Epworth league has subscribed \$1500 for the new Methodist church.

Powell Grady, the 11-year-old son of C. Powell Grady is down with scarlet fever.

The Assembly gave a dance at the Spaulding last evening. A pleasant time was spent.

The Rev. Wm. Ashmore Jr., missionary to China, will give an address at the First Baptist church this evening.

The Duluth Suffrage circle will hold its April meeting tomorrow at 2:30 p. m., at Educational union headquarters, 211 Superior street, East.

Ernest Lachmund and pupils will give their fifth musical at Temple hall next Monday evening. A very attractive program has been prepared.

The mayor of Lakeside will in a few days call a special meeting of the council for deciding on what improvements are to be made during the year.

The auctioneers have been notified by the police, on complaint of Charles Jeronimus that they must not sell liquor to Jurgen Jeronimus, a cigarmaker.

D. McKinley Jr. today took out permits to build four frame houses on the north side of South street between New York and Pennsylvania avenues, each to cost \$1000.

The ladies of the Unitarian church give an entertainment and supper at the church, corner of Second street and First avenue east, Friday evening. Tickets, 25 cents.

Iron work for the new Burrows building, Superior street and Third avenue west, is ordered and will be coming soon. The high building will be pushed forward on its arrival.

The business of the local car service association last month was \$915 cars, for both sides of the bay, of which 1100 were coal, 1500 wheat, 830 lumber, 200 hay, 170 flour and the rest very miscellaneous class of merchandise.

The Messiah chorus, under the direction of Professor Myers, goes to West Duluth this evening to give an entertainment. Professor Myers intends to add to the repertoire some choruses from "The Trovatore" and "Miserere."

Duluthians interested in football will probably find a meeting of the Duluth football association next Tuesday at the residence of Mr. J. J. Cook, physical director of the Y. M. C. A., and Messrs. Lutes, Warren and Briggs, who will be present today to take part in an athletic contest at the opening of the new association rooms.

Robert Whitesides, who is largely interested in the Vermilion range and at Ely, has returned from Los Angeles. Mr. Whitesides has been absent for over a year, and while away purchased one of the most valuable tracts of land on the coast.

Mr. and Mrs. R. L. Duane, who were injured in the Pennsylvania railroad wreck, will not be able to come to Duluth for six months or more. Mr. Duane's back still troubles him quite frequently, and his wife suffers from pain in the head.

A. C. Hough, of St. Paul, who was injured by the falling of an Omaha sleeper from the Northern Pacific bridge last summer, is at the Merchants La Paroie, where he expects to reside in the future. He is unimpaired for life, having one leg shorter than the other. He obtained \$5000 from the company.

Miss Nell, the city librarian, expects to leave tomorrow on her three weeks' visit to study library and library methods in Minneapolis, Milwaukee, Madison and Chicago. The libraries at Minneapolis, Milwaukee and Chicago are admitted to be as perfect in management as any in America, and Miss Nell will doubtless return with many new ideas.

Chamber of commerce Secretary Thompson returned from Chicago yesterday and left leaves in a day or two for Kansas City, where he will speak at the Western states convention on the waterways. Mr. Thompson has gathered a very valuable lot of fresh statistics and will doubtless be able to hold up his end among the many speakers of national reputation who are to be present at the convention.

PERSONAL.

S. La Frazer leaves tomorrow for Chicago.

Hon. W. R. Rogers has returned from Columbus.

Capt. Sellwood came down today from a visit to Ely.

A. B. Guphill, the Fargo attorney, will leave here.

W. T. Bailey has been up to Tower on a business trip.

Fred Gallup, of Milwaukee, is a guest at the Merchants.

D. E. Newhall and wife, of Buffalo, are at the Spaulding.

John Negina, the iron land man, has returned to the East.

Dr. D. D. Murray, of Mayville, N. D., is a guest at the St. Louis.

Joe Wolf is back from Chicago where he has been buying building stone.

Judge J. T. Hale is entertaining his brother, B. T. Hale, of Towanda, Pa.

John Wiemeis, of Rockford, N. D., is here and will probably open a bakery.

Conductor Parker, of the Omaha, has gone to the World's fair city for a short visit.

Dr. and Mrs. Collins give a card party at their new home, Wednesday evening next.

Capt. and Mrs. Vasego gave a progressive euchre party to their friends on Tuesday evening.

B. Porter, assistant registrar in the local wheat inspection office, has returned from New York.

Dr. Thomas O'Hagan has gone to Crookston, where he will give readings this evening.

Alderman and Mrs. Weiss leave soon on a visit to Richmond Falls, the former home of Mr. Weiss.

Mrs. A. B. Morrison, of Minneapolis, mother of Mrs. H. N. Timolat, is visiting her daughter.

C. H. Overington, the wholesale druggist of Minneapolis, is at the Merchants.

His wife accompanies him.

John J. Moe and family have come here from Dakota. Mr. Moe will establish a commission house at West Duluth.

A. B. Elithorpe, who is at the head of the passenger elevator manufacturing company of the same name, is at the Spaulding.

Edwin E. White of St. John, Me., and David McConell of Glasgow, Scotland, are registered at the Spaulding. The latter is a flour buyer.

Thomas Blute, of Campbellford, Ont., is at the Merchants. His mission here is to look after the estate of his deceased brother-in-law, Dennis Daisy.

L. J. Cook, physical director of the Y. M. C. A., and Messrs. Lutes, Warren and Briggs, who will be present today to take part in an athletic contest at the opening of the new association rooms.

Robert Whitesides, who is largely interested in the Vermilion range and at Ely, has returned from Los Angeles.

Mr. Whitesides has been absent for over a year, and while away purchased one of the most valuable tracts of land on the coast.

Mr. and Mrs. R. L. Duane, who were injured in the Pennsylvania railroad wreck, will not be able to come to Duluth for six months or more.

Mr. Duane's back still troubles him quite frequently, and his wife suffers from pain in the head.

A. C. Hough, of St. Paul, who was injured by the falling of an Omaha sleeper from the Northern Pacific bridge last summer, is at the Merchants La Paroie, where he expects to reside in the future.

He is unimpaired for life, having one leg shorter than the other. He obtained \$5000 from the company.

Miss Nell, the city librarian, expects to leave tomorrow on her three weeks' visit to study library and library methods in Minneapolis, Milwaukee, Madison and Chicago.

The libraries at Minneapolis, Milwaukee and Chicago are admitted to be as perfect in management as any in America, and Miss Nell will doubtless return with many new ideas.

Chamber of commerce Secretary Thompson returned from Chicago yesterday and left leaves in a day or two for Kansas City, where he will speak at the Western states convention on the waterways.

Mr. Thompson has gathered a very valuable lot of fresh statistics and will doubtless be able to hold up his end among the many speakers of national reputation who are to be present at the convention.

In MUNICIPAL COURT.

Illegal Liquor Sellers Plead Guilty; Lep Y's Assistant Convicted.

The police achieved a victory this morning when Frankie Young and Belle White pleaded guilty in municipal court to selling liquor without a license and paid fines of \$50 and costs, the amount in each case being \$54. The fine was placed in main, and it is hoped will serve as a warning to other evil doers.

Dan McDougall, who robbed Lay Yu, the Chinaman, was sent up for a lengthy term on the charge of assault.

Simon Fredrickson and Barney Leddy were committed for drinks and John Speely and Roderick McGuire for vagrancy. Michael Lovell, charged with fighting on the street, is having a hearing this afternoon.

It's Different Now.

It is understood that the people who were foremost in opposing the annexation of West Duluth to this city look at the matter in an entirely different light since the labor people obtained control of that burg.

On May 12, according to the provisions of the law just passed, another election will be held at West Duluth and the result is now looked forward to with great interest.

In the Toils.

Lacey May, a tough specimen, just out from a winter's sojourn in the woods, was arrested at 5 o'clock this morning by Officer Gillis for robbing a fellow lumberman of \$20 while the latter was asleep.

James Fitzgerald yesterday afternoon took a dummy from in front of Jones' store, near Fifth avenue west, into a hallway close by and stripped it of its clothing. He was shortly after juggled.

DIED.

NELSON.—In Duluth, April 8, at 1:30 p. m., Anna Margaret Nelson, infant child of John and Hattie Nelson, No. 181 West Superior street. Funeral Friday, April 10, at 2 p. m.

BOHN.

McFadden.—Last evening Dr. and C. W. McFadden of Crookston Park, a daughter.

C. H. Graves & Co. are offering special inducements to parties wishing to build in Endion.

THE MARKETS.

New York Reports Heavy Upward Movement in Stocks.

The usual news of export business and a strong situation abroad was received today, but it did not have much effect.

There was a strong opening all around but other markets weakened considerably. Our market held firm and steady despite the easing of elsewhere. Not much business was done anywhere, the trade being disposed to wait for tomorrow's government report and other developments.

A private message from New York said that it was figured that the total new crop options accepted for export footed up at least 300 boat loads.

THREE CENTS.

MINNESOTA
HISTORICAL
SOCIETY.

The Great Eastern
Exclusive Handlers of Strictly
Tailor-Made Clothing

It's a fact that the more you try to make an impression the less likely you are to make it. Just be your natural self and you'll be pretty sure to come out all right. You cannot be natural in demeanor if you are not properly attired and it's useless to attempt it. An awkwardly dressed man is almost certain to be correspondingly awkward in manner. He doesn't feel comfortable and he cannot help betraying it. He may have paid for his suit twice its value, but he'll never get any pleasure out of it. You will have no such unfortunate experiences if you buy one of our Tailor-Made Suits for \$15 to \$30. We clothe the best dressed men in Duluth—why not you?
"How about your Spring Overcoat?"

ARE TO GO

Members of Minnesota's Lower House Will Attend the Menagerie in a Body

To Get Posted as to What Kind of an Animal a Tight May Be.

A Pending Railway Deal in Manitoba of Serious Importance to Duluth.

St. Paul, April 10.—The members of the lower house of legislature have been working night and day to complete their work before the expiration of the time limit, a week from next Monday.

Regardless of this fact, however, the house this morning voted to accept an invitation to attend a leg show performance at the theater this evening instead of holding the usual session.

The object of the visit is to give members an opportunity to judge upon the merits of the McCall anti-tights bill now before them.

It is increasing and will be very serious.

Houghton, Mich., April 10.—The fire at the Peawick mine is increasing. Smoke is coming out of all shafts. The fire was caused by men building a fire to warm their dinner. A Cornish miner named Perry was seriously injured. The Quincy miners have gone to work. Drift between Peawick closed down. The Franklin mine is closed down. No. 4 shaft is all burning. The Quincy hole is closed up. It is impossible to close the openings between the Franklin and Peawick.

A GREAT DAY.

The First Train Passes Through the Tunnel.

Port Hope, Mich., April 10.—The first train passed through the great international tunnel last night. The train entered from Canada, passed through to the American port and returned. The approaches will be completed for traffic in about two months.

HARD ON MANITOBIANS.

The Northern Pacific May Sell Out to the C.P.R.

Winnipeg, April 10.—It is stated here that the Northern Pacific has offered to sell out its whole system in Manitoba to the Canadian Pacific railroad. It is probable that the offer will be accepted.

BARNES' FUNERAL.

Obsequies of the Noted Showman Taking Place Today.

Bridgford, Conn., April 10.—Business here today is almost entirely suspended out of respect to the memory of Barnum's great benefactor, the late P. T. Barnum. Mourning emblems are seen on all sides and the day is one of sorrow.

The funeral services were begun by a short service of prayer at 10 o'clock. At 1:30, only the members of the family being present. The body was then conveyed to the funeral home, where a service of prayer was held. The singing was specially beautiful and the funeral tributes many and appropriate. The church was crowded. A great throng followed the body to the grave.

WATCHING RETURNS.

The Chicago Election Returns Carefully Looked to.

Chicago, April 10.—A large number of enthusiastic politicians spent last night in a vigil over the election returns, and not a moment has elapsed since the returns were placed in the vault that several representatives of both parties have not been on the alert to bend off any possible attempt to get at the fatal papers. The official canvass was resumed at 2 o'clock this afternoon. The returns were sworn out yesterday by the republican managers against democrats have not yet been served, and no new warrants have been asked for.

The Patent Congress.

Washington, April 10.—The delegates to the patent congress, with members of their families and a number of department officials, went to Mt. Vernon today. The program arranged includes an address at Mt. Vernon by Dr. J. M. Toner, of Washington, on "Washington as an Inventor and Promoter of Improvements," the formation of a permanent society of inventors, and on the return of the party to Washington a review and parade of the national guards of the district.

Mark Baldwin Wants \$20,000.

St. Louis, April 10.—Mark Baldwin, the Pittsburgh League pitcher, in consequence of the attempt by President Von der Ahe of the St. Louis club, to prosecute him for conspiracy to entice ball players from his club, will tomorrow file suit against President Von der Ahe for \$20,000, alleging malicious prosecution. The suits brought against Baldwin by Von der Ahe were dismissed for want of prosecution after three continuances.

Counterfeiters Quickly Caught.

St. Louis, April 10.—Early this morning the police arrested two men giving their names as Clarence S. Wells and Wm. White. The men had just stepped from a steamer arriving from New Orleans. The men carried a satchel in which was found a complete outfit for the manufacture of counterfeit silver coin, together with a number of finished products. They will be turned over to the United States authorities.

Sell the Gold Coins.

New York, April 10.—Hedellach Lickheimer & Co. have taken \$500,000 and Ladenburg, Tholman & Co. \$500,000 gold coin for shipment to Berlin.

A ROW OVER WATER.

The Apollinaris Trade Mark an International Question.

Washington, April 10.—It is said that the troubles of the Apollinaris company of London, vendors of the celebrated water of that name, may assume a phase that will call for the consideration of the state department. Some time ago the company obtained an injunction against an American firm restraining it from using the Apollinaris trade marks, and also claimed damages for the alleged infringement.

Subsequently to this Judge Beach granted an order appointing United States Consul Wm. of Cologne, Germany, the commissioner to take the testimony of witnesses for the defendants at that place. The London firm picked strenuously at this action contending that an American consul could only examine citizens from his own country, and could not compel attendance upon his inquiries or administer the oath to German subjects. Not only this but they brought the matter to the attention of the German government. As a result of this proceeding the injunction which the Londoners had obtained by process of American law has been summarily dissolved by the supreme court, and as a reward for their tenacity they have been left without a leg to stand on. Papers relating to the matter are now being prepared and will be submitted to the English government.

A MAMMOTH HOTEL.

Built by the Society for the Prevention of Prejudice.

New York, April 10.—The foundation has been laid for the mammoth hotel which is to be erected in the Adirondacks by some of the members of the Society for the Prevention of Prejudice, and it is expected that the structure will be completed this summer.

The promoters have secured 10,000 acres of land with a large frontage on Lower Saratoga lake in Franklin county, and the sum of \$1,000,000 will have been expended before the hotel doors are opened. The enterprise is prompted, not so much by the lack of hotel accommodations in the mountains, as by the disposition shown by several of the present hotels to pick their guests from the host of applicants and to leave many unfortunate, especially those belonging to the Hebrew persuasion, in the lurch. As its name indicates, the hotel will be conducted without prejudice and Jews will be made just as welcome as Episcopalians or Catholics.

A Spring Cyclone.

Kansas City, Mo., April 10.—A cyclone passed over Nevada, Mo., Wednesday night tearing down three dwelling houses and many barns and outbuildings. No one was hurt in the city, but it is reported that a child of Wm. Lewis, living four miles east of the city, was severely injured.

Lexington, Mo.—Yesterday during a terrific electric storm, an old building was struck by a bolt of electricity and completely destroyed. The residence of John Taylor all the window glass was shattered, and old Mrs. Taylor was badly injured. The bolt was felt in various parts of the city.

Illinois Arbor Day.

Chicago, April 10.—This is Arbor day in the state of Illinois, and in every region there is expected to be a very general compliance with the proclamation of Governor Filer. There is one feature of the observance, however, which will be ignored so far as this city is concerned, Superintendent of Schools Howland, of Cook county, says that he has never been paid Arbor day as a general school holiday, that the children are already allowed too many holidays, and that any more are entirely unnecessary.

This is Hardly Like Reciprocity.

London, April 10.—At a meeting of the board of trade a resolution was unanimously passed, declaring that the time had come in the interest of the empire when closer relations should be entered into with Great Britain and her colonies, and that an import duty imposed on the food products of nations with tariffs hostile to her own could not increase the cost of the food products of the empire, while it would increase production there.

A Celebrated Trial Over.

ATLANTA, Ga., April 10.—The trial of Mrs. Ora McKee for the murder of Mrs. Wm. McKee ended today. The court house was crowded and the trial was a very interesting one. Mrs. McKee was sent to the penitentiary for life.

The Newfound Land Pass.

London, April 10.—The statement that it has been decided to permit the Newfoundland delegates to present their side of the fishery dispute at the house of commons is erroneous. The delegates will present a petition requesting the privilege of presenting their side of the question in that manner.

Didn't Like the Phrase.

DUBLIN, April 10.—Henry Campbell, M. P., and private secretary to Mr. Parnell, has entered action for libel against the proprietor and editor of the Cork Herald. The action is brought because of the publication of imputations that he had acted as a go-between in procuring houses where Mr. Parnell and Mrs. O'Shea could meet and reside.

To Discuss Davitt.

LONDON, April 10.—In the house of commons last night the speaker consented to permit Justin McCarthy to move an adjournment in order to discuss the rejection of Mr. Davitt as Irish nominee for the royal labor commission.

MEMORIAL DAY.

At a meeting of the committee appointed by Willis A. Gorman post No. 13, G. A. R., to make arrangements for the proper observance of Memorial day and Memorial Sunday, the following sub-committees were appointed: Music, Comrade Gerhart; finance, Comrades Holden and Dailey; flowers, Comrade Osterhout; invitations, Comrade Gerhart; speakers, Comrade Farrell. It was decided to accept the invitation of Rev. Geo. H. McKeland to hold Memorial Sunday service with the First Baptist church.

It is probable that the graves of the deceased soldiers in the new cemetery will be decorated in the forenoon and a parade and address occur in the afternoon. All civic societies of the city will be invited to participate in the service.

Peoples Savings bank, the only exclusive savings bank at the head of the lake.

THE CHILIAN WAR

Government Agents Abroad Furnish Government Money as Sinecs to the Rebels.

The Insurgents Reported to be Making Steady Progress, Especially in the South.

Liberals Win in Prince Edwards Island and Force the Government Out.

New York, April 10.—The latest details received in this city from the seat of the civil war in Chili states that Guillermo Metta, the Chilean minister at Buenos Ayres, has declared his allegiance to the rebels, and as a consequence he has been publicly denounced as a traitor. Gabriel Vidal has been appointed in his place.

Guillermo Puelma, Tupper, who had a very prominent part in the government, has also been adjudged a traitor. All the property of these gentlemen has been confiscated. Minister Añez, who has been in Paris, has also been branded as a traitor.

This gentleman not only placed himself at the disposal of the insurgent commissioner in that city but accepted drafts made upon him by the rebel leaders. The money with which he paid these drafts had been sent to him by Balmaceda to pay for the new cruisers in course of construction in France for the government.

In spite of all the statements of the government officers, the revolution is rapidly extending in the southern provinces, which had heretofore been considered loyal to the government.

CANADIAN LIBERALS WIN.

They Got a Sweeping Victory in Prince Edward.

HALIFAX, N. S., April 10.—The liberals won a sweeping victory in Prince Edward Island yesterday. Four members resigned their seats in the legislature to become candidates for the Dominion franchise, viz: The Hon. Donald Ferguson, provincial secretary; Patrick Blake, speaker of the house; John McLean and John Lee, leader of the opposition. The first three were supporters of the government.

The elections to fill the vacancies resulted in the return of four opposition candidates. This defeats the government, and it will be forced to either resign or dissolve and make a general appeal to the country.

THE LABOR COMMISSION.

The Crown Announces Its Royal Labor Commission.

LONDON, April 10.—In the house of commons this afternoon W. H. Smith, the government leader, announced the royal labor commission as follows: Lord Hartington, the earl of Derby, Sir Michael Hicks Beach, Sir John Gorst, Right Hon. A. J. Mundella, president of the board of trade; Mr. John Lubbock, president of the board of agriculture; Mr. P. J. Parnell, president of the board of commerce; Mr. P. J. Parnell, president of the board of commerce; Mr. P. J. Parnell, president of the board of commerce.

Geraldine Will Still Sing.

LONDON, April 10.—Geraldine Umar will not retire from the stage as a result of her recent marriage to Mr. Carlyl, but will take a long holiday. She will appear in London at the end of the year in an opera composed by her husband, Marie Halton.

The Newfound Land Pass.

LONDON, April 10.—The statement that it has been decided to permit the Newfoundland delegates to present their side of the fishery dispute at the house of commons is erroneous. The delegates will present a petition requesting the privilege of presenting their side of the question in that manner.

Didn't Like the Phrase.

DUBLIN, April 10.—Henry Campbell, M. P., and private secretary to Mr. Parnell, has entered action for libel against the proprietor and editor of the Cork Herald. The action is brought because of the publication of imputations that he had acted as a go-between in procuring houses where Mr. Parnell and Mrs. O'Shea could meet and reside.

To Discuss Davitt.

LONDON, April 10.—In the house of commons last night the speaker consented to permit Justin McCarthy to move an adjournment in order to discuss the rejection of Mr. Davitt as Irish nominee for the royal labor commission.

MEMORIAL DAY.

At a meeting of the committee appointed by Willis A. Gorman post No. 13, G. A. R., to make arrangements for the proper observance of Memorial day and Memorial Sunday, the following sub-committees were appointed: Music, Comrade Gerhart; finance, Comrades Holden and Dailey; flowers, Comrade Osterhout; invitations, Comrade Gerhart; speakers, Comrade Farrell. It was decided to accept the invitation of Rev. Geo. H. McKeland to hold Memorial Sunday service with the First Baptist church.

It is probable that the graves of the deceased soldiers in the new cemetery will be decorated in the forenoon and a parade and address occur in the afternoon. All civic societies of the city will be invited to participate in the service.

Peoples Savings bank, the only exclusive savings bank at the head of the lake.

THE COKE STRIKERS.

They Assemble and Report on Assistance Needed.

SCOTTSBURGH, Pa., April 10.—Sixty-five delegates, representing all the coal strikers in the coke region, assembled in special convention here today. Secretary Parker delivered an address, reviewing the strike since its inauguration and reported on the condition of affairs in the coke region at the present time. Mr. Parker promised to use every available means to secure the conviction of the persons responsible for the Morewood murders.

The delegates then reported. A number of families of strikers were reported badly in need of assistance. Master Workman Wise promised prompt and liberal aid. The convention then went into the general discussion of the strike. Whether the strike will be continued indefinitely or methods be adopted to bring it to a speedy termination will be determined this afternoon.

The Coal Strike.

PITTSBURGH, April 10.—The coal operators talked over the situation and agreed to fight on May 1, and fight hard. They will likely hold another meeting shortly. Col. W. F. Read said: "It is with extreme sorrow I see the agreement shattered. There will undoubtedly be a strike on May 1; there will be 500,000 affected by it and the big industries of the country will be prostrated."

MYSTERIOUSLY HUNG.

A Murder in Ohio Suddenly and Fearfully Avenge.

Knox, Ohio, April 10.—William Bales, who murdered Policeman Harper Tuesday last week, was taken from the jail by a mob of about fifty at 2 o'clock this morning and hanged to a tree. The mob gained entrance to the jail by breaking down the door. A dozen men met the sheriff at the foot of the stairs and thrust revolvers in his face demanding the jail keys, saying they wanted to get Bales to hang him. The sheriff refused to get the keys but they found them, and opened the jail doors and got Bales. They took him out and hanged him to a poplar tree about fifty yards from the jail.

The mob was well organized; all wore black masks, except one which was white, apparently the leader. No shot was made. All spoke in whispers. The work was quickly and systematically done. Not more than twenty minutes elapsed from the time the door was broken open until Bales was dangling between earth and sky. Suddenly guards all approached leading to the jail. No body was allowed to approach nearer than a square. The mob dispersed as quickly and silently as it gathered, all going in different directions.

Nobody saw the hanging except the by-standers. Some guarded the sheriff while others stood on the street corners and stopped pedestrians from approaching. Who the mob was, where they came from, is a mystery. The coroner is holding an inquest.

A COPPER TRUST.

American Plumbers Will Now Try Their Hands at It.

PHILADELPHIA, April 10.—The formation of a gigantic copper trust was manipulated in this city Wednesday. The scheme was practically consummated at the meeting of the Plumbers' Copper Ware association of the United States, which was very largely attended. There was no attempt to disguise the fact that the object of the meeting was the consideration of plans by which a trust or combination could be formed whereby the material interests of the business might be promoted. It was claimed that a ruinous cutting of prices had occurred lately and that a better and sounder condition of affairs was to be desired.

A full representation was present at the meeting, the manufacturing centers represented being Philadelphia, New York, Boston, St. Louis, Chicago, Cleveland, Brooklyn and Baltimore. The officers of the association were: President, Fred E. Holton of Boston; vice president, P. T. Ronalds of New York; secretary, Edward W. Lowe of New York.

WILL END IN A ROW.

The Parnell Question in the National League.

CINCINNATI, April 10.—The council of seven of the Irish National league of America, was in secret session today. No definite action was taken on the report of the sub-committee appointed last night to consider the questions that have forced themselves upon the league. It is apparent that there is a hitch in the proceedings which bodes no good for Parnell and his adherents.

Stockyards Burn.

CINCINNATI, April 10.—The property of the Union Stock Yards company of which W. J. Lippencott is president and Thomas C. Shipley is secretary was burned last night. The sheds were built in 1881 and covered nine acres of ground. They were known as the New Stock yards. The loss of the sheds and the damage to the stock will interrupt the business of the company. The loss amounts to \$100,000; insurance, \$41,000; of which \$13,500 is in local companies.

A Narrow Escape.

LONDON, Ky., April 10.—What came near being the most disastrous wreck ever had on the Louisville & Nashville road, was miraculously prevented on the passenger train from Louisville for Middlesboro. Section hands working near here had removed a broken rail and replaced it temporarily, when the train came thundering along. The engine passed over safely, but the baggage and smoker and two passenger cars were turned completely over, fatally injuring Expressman J. W. Miller, of Louisville. Several others were hurt.

A Boston Firm Embarrassed.

Boston, April 10.—J. M. Plummer & Co., dealers in rubber goods, are financially embarrassed and ask for an extension. The liabilities are stated to be between \$20,000 and \$70,000. Mr. Plummer is connected with the firm of Brooks, Oliphant & Co. of Trenton, N. J. James Brooks, one of the partners, has disappeared, and it is reported that it was through him that Plummer & Co. have become involved.

Navassa Rioters to be Committed.

BALTIMORE, April 10.—In the case of the three Navassa rioters, who are now in jail here under sentence of death, United States District Attorney Ennor has sent the evidence back to the President and recommended that sentence in each case be commuted to imprisonment for life.

FOUGHT ON A TRAIN

A Northern Pacific Freight Conductor Hammers His Man to Insensibility and Skips.

Sheriff Still on the Lookout for the Suddenly Vanished Train Official.

A Crazy Man's Exciting and Perilous Ride on the Iron Range Road.

Wednesday people on the eastbound freight train that runs between Duluth and Ashland on the Northern Pacific had an exciting experience. A lively and cross-grained lumberman happened to get on board and fell into some dispute with Conductor Sheehan in regard to his fare. The contest waxed so warm that the lumberman drew a revolver on the conductor, whereupon the latter seized a stove-poker and belabored the passenger's head so badly that he was dangerously wounded. Yardmaster Richards, of this city, was telegraphed to bring the train back from Ashland yesterday morning. Conductor Sheehan came on the train. Sheriff Kennedy of West Superior had been notified to arrest Sheehan when the train arrived at West Superior. But Sheehan fooled him by getting off the train at old Superior, walking over to the South Superior and taking the afternoon Northern Pacific train for the West. Thus far he has not been arrested. Sheriff Kennedy was greatly surprised to find no traces of his man but his old clothes. The wounded man was said to be in St. Francis hospital at old Superior, but the sisters deny that any such person has been taken there.

A LIVELY PRISONER.

He Dangles in Air at a Thirty Mile Gallop.

Police Marshal Betty, of Tower, was notified from Mesaba this morning that he must at once take a crazy man named John Lee to Duluth for safe keeping. When he arrived at Mesaba he found the man acting quite sane and began to think that he might be the laughing stock of the county if his action proved to be a mistake.

On the way to Duluth the man showed no symptoms of insanity for a long time and was allowed great liberty. Suddenly, without warning, he made a dash for the platform of the car while the train was running at the rate of thirty miles per hour. When the marshal and others got to the platform they beheld the crazy man with his feet dangling in space and holding on to the railings on the two cars. The marshal every moment expected to see his prisoner let go his hold and fall under the wheels, and yet he did not dare venture too near for fear the crazy man might seize him and drag him down with him. After a while the marshal saw his opportunity, got his man by the back of the neck and with the assistance of several others succeeded in landing him safely on the platform. The prisoner had no further chances of getting at liberty.

He is now here in the county jail and will be examined for insanity tomorrow before Judge Ayer.

FOOD FOR REFLECTION.

The Smelling Committee Will Have a Steady Job.

Messrs. Thomas, Vance, Eden and Christie, representing the Northern Pacific, St. Paul & Duluth, Eastern Minnesota and Lake Superior Transit company, have returned from St. Paul, whither they were summoned to testify regarding the alleged grain irregularities of two years ago. They found Messrs. Lynch and Patterson giving the legislative committee the necessary points. Bill Erwin, the attorney for the committee, was the only one who displayed any ability in the matter and he was sadly hampered by his lack of knowledge in grain and railroad affairs.

The railroad representatives left 220 books for the committee to use, of which 100 belonged to the Northern Pacific, 72 to the St. Paul & Duluth, 30 to the Eastern road and 15 to the Transit company. Before they through examining them the committee will become somewhat tired. Erwin claimed yesterday that he had discovered whom 5,000 bushels of missing wheat had gone to.

The Hudson Bay Road.

A report from Winnipeg says that the Hudson Bay railway has offered to accept a cash bonus of \$1,000,000 from the local government as an aid to the road, to be paid on completion of the line to Hudson Bay. It is said that the government may grant the company's request. Last year the government placed on the statute book an act granting a \$750,000 cash bonus, or a guarantee of \$14,000,000 of the company's bonds. The company is now indebted to government \$400,000, which would be kept out of the bonus.

Very Heavy Loss.

MEMPHIS, Tenn., April 10.—The cotton sheds of Hill, Containe & Co. are burned, having caught fire from the sparks of a locomotive. Ten thousand bales of cotton were destroyed. The loss will reach \$325,000. The fire is under control, but like other cotton fires will smoulder for some days.

A Mother Suicides.

CINCINNATI, April 10.—Mrs. Bertha Stearns, of 48 St. John place, while temporarily insane last night, drowned herself in the artificial lake in Union park. Mrs. Stearns was 26 years old and the mother of three children.

Fired an Umpire Already.

St. Louis, April 10.—President Kramer of the American association, has fired Umpire Gleason. It is reported that he is a St. Louis-Cincinnati game of Wednesday last is the cause of his removal.

Joseph Cook Ill.

Fort Scott, Kan., April 10.—Rev. Joseph Cook, of Boston, was taken suddenly ill while delivering a lecture in the opera house in this city last night and is now under the care of a physician. His affliction is throat trouble.

M. B. HARRISON.

DULUTH AND MINNESOTA FINANCIALLY.

Duluth's bank clearings are not quite as large this spring as one year ago, but they are, nevertheless, such that any city several times Duluth's size might be proud of them. Last week this city was thirty-fourth in the list of American cities making clearing returns. Six banks are represented in the Duluth clearing association, a much smaller number than make up the associations in most cities doing the same amount of business as Duluth. For instance, Salt Lake City divided the same amount of business among nine banks, Peoria, among ten, and Fort Worth, among seven. Washington divided \$100,000 less business among eleven banks, St. Joseph and New Haven, a business \$400,000 less among ten banks, Springfield, a business only half as large among ten, Seattle, a business only two-thirds as great among fourteen, Sioux City among fifteen. The cities doing a business two and three times as large as Duluth have a much larger increase proportionally in the number of their banks.

On July 1 the banking capital of Duluth will be increased over the present total by \$445,000. It will be distributed by three banks, one of which is a new institution at the west end. This will have an excellent effect but there still is room, and abundant room, in the city for more banking houses. Duluth would welcome, and could support, another bank as large as our biggest. There is a field for such an institution and it would have a good and very profitable business from the start.

The tendency of the bank clearings of Duluth to decline since Jan. 1 has been shared by forty-five cities of the country. If business has been somewhat dull here, it has been extremely dull in most parts of the United States and Canada. Minnesota as a whole has come out of the financial stringency of last November in excellent shape and the promises of the future that is in store for her are truly grand. During the first quarter of the year Minnesota had only 52 failures, as against 96 one year ago. The assets of the bankrupt firms in the two years were \$218,735 and \$409,158, while the liabilities were \$378,328 and \$426,612 respectively. Nebraska had 176 failures for the first quarter of this year; California, 192; Massachusetts, 270; Connecticut, 75; Mississippi, 82; Tennessee, 75; Michigan, 81; Colorado, 66; Wisconsin and Washington, 53 each; Iowa, 73, and Oregon, 56. The North-western failures numbered 393 this year as against 357 one year ago.

WISE WORDS, WELL SPOKEN.

Aboard a steamship that arrived at New York the other day were 700 Scandinavian immigrants, hearty, healthy, plucky, and light-haired young people of both sexes. They were bound for the West, even for Minnesota and Dakota, where they will take up land and begin a new life as American farmers, raising grains, fruits and cattle for their own nourishment and for the service of mankind. There were among them no paupers, or felons, or lunatics, or contract laborers, or persons afflicted with loathsome diseases, and it was hardly necessary for the inspection agents at the barge office to take a look at them in order to see that they belonged to the class known as "desirable immigrants."

They have come to America as hundreds of thousands of other Swedes and Norwegians have come during the past forty years; and they have struck out West to take land as those others did; and they are pretty sure of enjoying the prosperity that so many of their countrymen already enjoy in this part of our great country.

and to do their part toward the upbuilding of the great Northwest, a part their predecessors have so nobly taken.

Speaking of these immigrants, and the desirability of restricting European immigration, the New York Sun says: "Now if all our other immigrants from Europe, including those from Italy, Poland, Hungary, and Russia, were as spirited as these Scandinavians, and would follow their example, how much better it would be for them than crowding into cities, struggling for daily hash, and spending years in complaining."

THEIR OWN MEDICINE.

When the eight-hour law comes up in general orders in the house, it is understood that Mr. Kendall, of this city, will present an amendment making it a penal offense to exact more than eight hours for a day's labor on the part of farm laborers. Then look out for the mad rush of approval of the amendment which will take place on the part of the agricultural statesmen.

The agricultural statesmen are pushing the bill, but without any idea of adapting it to their own peculiar conditions. Possibly Mr. Kendall's facetious little scheme may give these brilliant statesmen an object lesson. If the fallacy of some of the laws for the injury of the state, which they have so industriously fathered, could be shown to them in this manner, it would be well.

Tonight the fiftieth anniversary of the founding of the New York Tribune will be celebrated in New York. Among the speakers are to be James G. Blaine, George William Curtis, Chauncey M. Depew, Charles A. Dana, and Roswell G. Horr. Edmund Clarence Steadman will read a poem and Walter Damrosch will lead the orchestra. Every ticket has already been taken. In announcing this celebration the Tribune says that it has given attention to "every great movement for the promotion of sobriety and morality, the development of the industries and resources of America, the enlargement of interstate and the education and improvement of the masses." All good newspapers do, or attempt to do, these. The Tribune's great claim to be considered the leading journal in America lies in the fact that it is dignified and true, lending its influence steadily against sensationalism and toward the uplifting of the community, its world-wide and famous correspondence, and its literary ability. May the second fifty years of Horace Greeley's paper be as successful as the first.

The Western Union Telegraph company has agreed that discretion is the better part of valor—in Minneapolis, and will put all its wires underground there before July 15. Minneapolis' City Attorney Russell says that "the present attitude of the company is a result of necessity. An examination showed that all suits to force wires underground had gone against the telegraph company concerned. Similar cases have been tried in New York and other cities, and the telegraph companies have been defeated without an exception. These facts were pointed out to the company by the city and the authorities cited. This probably accounts for the change of base, as the company had practically no chance of making its point." A law that holds in one city will hold in another. Minneapolis does not cable and telegraph business than any other city in the state. St. Paul is next in telegraph and third in cable while Duluth follows St. Paul very closely in the one and leads it a long way in the other.

It appears by the report of an agent of the treasury department in Vermont that heavy masses of immigrant are still coming to this country from Europe by way of Canada; that as many as 8000 of them came last month, and that they are not subjected to the inspection required by the new immigration law. The new law makes special provision for inspection at this side of the boundary line between Canada and the United States. It authorizes rules for immigrant inspection along the borders of Canada, and an inspector for each custom district here. Besides Vermont, immigrants are coming in elsewhere. As was shown in a local article in The Herald the other day they are coming this way, crossing at the Sault, while St. Vincent reports a small number.

Senator Humpal's bill, now before the state senate, to reduce the maximum rates for legal printing to forty and twenty cents a folio will simply result in the printing of all legal advertisements in the weakest and least valuable publications. No well established daily paper can afford to set its space at twenty cents a folio for continuous publication, especially when it is considered the care and responsibility in connection with important legal notices.

Tariff Pictures.

In Stockholm, Sweden, women carry mortar and bricks up to the mansions, and they are paid about 30 cents per day for this kind of work. Hod carriers in England, average daily wages—
83 cents—16 cities.
United States—average daily wages—
\$2.44—26 cities.

When women do this work in the United States for the same price as in Sweden we shall be able to build just as cheaply as they do in Sweden. How happy this will make free traders.

A HERO OF ORATORY.

My South Florida friend has sent me a couple of late copies of the Winter Park Advocate and from it I clip a few lines of the unassuming but pleasant of the starting Josh Billings who is its editor.

Emma Thursty had a lot of been in Winter Park and the musical soul of the editor is aroused. He says: "If it had been possible for the musical mocking bird to sit in some indescribable place and listened to the unexcelled soprano of Miss Thursty, or the European orchestra been hidden away in the chamber of some European tourist, and heard the even smooth tenor of Mr. Zimmerman, they would have been charmed of their position. Good music will beguile the boldest Paulsen, the lion, the wildest, the hyena, or any other ferocious beast, beasties or varmints; how much can human with its wonderful tenderness and sweetness, be charmed by the sweetest voice of a woman and the captivations strainings of a human hand. When the orchestra led out on 'Overture, Hungary,' 'Lordly' 'Gavotte for Cello' 'Polkae from Mignon,' the intelligent audience seemed to sit in some indescribable place and heard the even smooth tenor of Mr. Zimmerman, they would have been charmed of their position. Good music will beguile the boldest Paulsen, the lion, the wildest, the hyena, or any other ferocious beast, beasties or varmints; how much can human with its wonderful tenderness and sweetness, be charmed by the sweetest voice of a woman and the captivations strainings of a human hand. When the orchestra led out on 'Overture, Hungary,' 'Lordly' 'Gavotte for Cello' 'Polkae from Mignon,' the intelligent audience seemed to sit in some indescribable place and heard the even smooth tenor of Mr. Zimmerman, they would have been charmed of their position. Good music will beguile the boldest Paulsen, the lion, the wildest, the hyena, or any other ferocious beast, beasties or varmints; how much can human with its wonderful tenderness and sweetness, be charmed by the sweetest voice of a woman and the captivations strainings of a human hand. CITY BRIEFS.

The Duluth Prison for April is out and makes a most creditable appearance. The "sen king," an elaborate recreation, will appear in Duluth April 17 and 18. The ferry Duluth is this afternoon making an attempt to go from Duluth to West Superior.

The coffee dam at Thompson has been taken down, two-thirds of the dam proper being completed.

Seventy-five cars of Manitoba wheat have been received here this far this week, an excellent record.

The minstrel club is faithfully practicing for the show to be given early in May for the benefit of Company K.

Several contractors are in the city to figure on the new Methodist church, bids for which will be opened in a few days.

Ole Olson has purchased the Oden, and will use her the coming summer for carrying sand and gravel. John Shy will be her captain.

The St. Louis County Investment company of Duluth, was incorporated in the office of the secretary of state yesterday with a capital stock of \$100,000.

Messrs. Hetherington and Ramsdell, late of the Ramsdell Engraving company, of Minneapolis, will start an engraving business here in about two weeks.

The subject for the next meeting of the Round Table will be the American constitution, its defects and their remedies. There will be a general discussion.

Don't forget to attend the comedietta and supper given at the unitarian church this evening at 8 sharp. Tickets for supper and entertainment, thirty-five cents.

Rev. W. M. Barker gave a caelest light exhibition of the city of Washington at his residence last evening at which a large number of the young people of the parish were present.

The statement in The Herald last night to the effect that the choral union would sing at West Duluth last night was a day too quick. The appearance of the union at West Duluth will be tonight.

Willis A. Gorman post has commenced the creation of a fund for the erection of a monument on "Soldiers' Rest" in Forest Hill cemetery, and in due course of time will appeal to the public for assistance.

W. H. Richardson, head salesman for the Duluth Shoe company, has arrived. He is thoroughly experienced, having been identified with Goetzman & Co., the North Star Shoe company and other leading houses.

There will be a social and entertainment for the juniors of the Y. M. C. A., tomorrow evening at 8 o'clock. The medals will be presented to the successful winners of the late junior contests. Parents and friends of the boys are invited.

At the Lyceum the freescenes are at work on the theater ceilings, while the plaster is all in place in the auditorium. Workmen are busy placing the steel framework floors of the boxes and a good deal of the interior staging will soon be taken down.

The first of the second series of popular concerts at the Bethel is to be given Saturday evening at 8 o'clock, by Hove's orchestra, under the direction of C. Trantveter. It is hoped to make these concerts as popular as were the Lachmund entertainments.

It is hoped that Mrs. VanCleve will speak to the ladies on Monday afternoon at 3 o'clock in the Congregational church on reformatory work for women and will relate to them her experience in starting the Bethel home. There exists an urgent need for such a work in Duluth.

President Truelsen, of the board of works states that correspondence has been passing for some weeks between the board and prominent Eastern civil and city engineers looking toward the recommendation by them of a man for the position of city engineer here. No decision has yet been reached.

Wellington R. Bart, of Saginaw, well known as a big lumberman and salt manufacturer, is in the city. He is here on lumber matters and is as enthusiastic as ever over the future of Duluth as a lumber center. "My prediction of a year ago in The Herald," said he today, "in reference to the lumber business here and the way it would grow if you Duluth people would help it along, seems to be verified already. There are other big Michigan millers who will come here before long, too."

Norwegian and live oil at C. J. Tufts' drug store, 1303 West Superior street.

Mortgages bought. Collateral and short term loans wanted.

CLARK & PARULK.

We buy notes and short time paper. Also purchase money mortgages. We want at once a mortgage for \$15,000 on improved and centrally located property.

CLARK & CROSSLLEY, 402 Palladio building.

Scottish Clans.

At the regular meeting of Clan Stewart on Wednesday evening there was a very large attendance. Chief A. S. Wilson was elected delegate to attend the convention of Royal Clans, to be held at Buffalo some time in June, and C. Thompson was appointed alternate. The lodge then decided to give one of their pleasing socials, with a hop thrown in, on the evening of April 28. The most recent accession to the ranks of Clanmen are Rev. Mr. Noyes and Mr. Togan, and it is evident that no efforts will be spared on the part of the members of this enterprising society until every Scotchman in Duluth is gathered into the fold.

A "Lifer" Free.

The Herald last week noted the fact that a pardon was to be asked Governor Merriam for Azilda Beaudry, who was tried here and sentenced by Judge Stearns for life, for the murder of her husband. It has since been granted and Azilda is now on her way to visit her old mother in Canada. A letter was received a day or two since from Azilda to an acquaintance she made while in prison announcing her release. She was then on her way to visit her mother. She was very happy to be free after eight years of imprisonment.

The Saturday Club.

The program for April 11 at the Saturday club is "Review of French History From the Time of Clovis to the Present Century." Mrs. W. M. Hubbard will be the leader. Thirty questions have been assigned to as many members.

The topic for general discussion will be "The Bering Sea Question."

C. H. Graves & Co. are offering special inducements to parties wishing to build in Endion.

PERSONAL.

Doc West is down from Tower.

County Auditor La Vague is in St. Paul.

M. M. Gasser goes East on today's Omaha.

Walt McE went up on the range this afternoon.

S. A. Thompson started last night for Kansas City.

A. J. Mathewson, of The Herald staff, is on the sick list.

John Larson, of Moose lake, is a guest at the Merchants.

Mrs. E. M. Noyes has returned from her visit to Minneapolis.

B. H. Baker, manager for the Kansas City Armour, is in town again.

Attorney G. W. Bonham came down from Tower today on court business.

W. D. Wing and W. F. Dermont, of Houghton, Mich., are at the Spaulding.

The Y. P. S. C. E. of the First Presbyterian church held a social this evening.

J. H. Richardson, a member of the shoe manufacturing firm of Reynolds Bros., Utica, N. Y., is in the city.

Mrs. J. W. Miller was called to Minneapolis yesterday because of the sudden and dangerous illness of her father.

Mr. Faulkner, of Danville, N. Y., at one time clerk for A. J. Whelan in this city, is visiting in Duluth for a few days.

R. F. Nachtrieb, formerly manager of the American District Telegraph company, is in the city.

Ex-City Clerk Budden will open a grocery store at the corner of First street and Second avenue, in partnership with Ole Olson.

A. Hirsch returned this morning from a trip through Wisconsin, in which he purchased thirty-one head of cattle for Willows farm, owned by E. P. Emerson and himself.

S. F. Snively left on a trip to his mine claims yesterday and will look over the properties of the Sullivan iron company. The company expects to do a great deal of development and to make quite a stir among mining companies this year.

THE MARKETS.

Duluth Wheat, New York Stocks and Market Notes.

Wheat was slightly weaker this morning at the opening but quickly grew firm and later advanced. In the last hour or so there was another weak spell and prices got down to the opening figures and below. The news from the outside was of a conflicting nature. Ocean freights from May forward were said to be in active demand. It was supposed the government crop report this afternoon would be of a weakening tendency. There was an excellent demand here from the East for May 1 northern and sales were large.

Cash wheat was neglected. No. 1 hard car lots closed at \$1.03½. Cash 1 northern car lots closed at \$1.00½. Cash 2 northern car lots closed at 97½c. April 1 hard closed at \$1.00½ and 1 northern at \$1.00½. May 1 hard was dull. The only sale was at \$1.07 and the close was \$1.06½. May 1 northern opened at \$1.04½, advanced to \$1.05½, declined to \$1.04, and closed at \$1.04½. June 1 hard closed at \$1.08 and 1 northern at \$1.06½. July 1 hard sold at \$1.10 and closed at \$1.09½. July 1 northern sold at \$1.07½ and closed at \$1.06½.

New York Stocks.

New York Money and Stocks.

New York, April 10.—Money on call loaned at 3½c per cent. Exchange steady; actual rates, 486½/487½ for sixty days, and 488½/489½ for demand. Government's steady; currency, 6½, 112 bid, 4½, coupon, 122½ bid; 4½s, do, 102 bid.

Trading in stocks this morning was on a moderate scale, 151,000 shares changing hands up to noon. In the first hour the market was irregular and weak. The sugar trust and Chicago gas were the features. Both were considerably pressed for sale and under their lead the whole market gave way ½ to 1½ per cent. In the next hour the southwestern shares began to develop considerable activity. They were bought more freely than for some time past, and their prices advanced. The most active were the Atchafalpa & Missouri Pacific were the features.

Chicago Wheat.

CHICAGO, April 10.—Opening prices for all products were lower than at the close of business last night. Grains were especially weak because of the spring-like weather and the receipt of 202 cars at Duluth and Minneapolis. May wheat started at \$1.08½, against \$1.04½ as last night's close; it sold off to \$1.03½ and rallied to \$1.04½. May corn started at 66½c; July, 63½c; May oats, 53½c; July, 50½c; May, 52½c; July, 50½c. Rye, May, \$6.12½; July, \$6.47½.

Chicago Live Stock.

Union Stock Yards, Ill., April 10.—Cattle.—Receipts, 6000; strong and 10½c to 11c higher. \$5.00/5.50; mixed and heavy, \$4.90/5.35; light, \$4.65/5.15. Sheep.—Receipts, 6000; strong and a shade higher.

Foreign Grain.

LONDON, April 10.—The grain markets opened this morning firm. At Liverpool flour was quoted 6d higher; wheat firm and unchanged. Corn in moderate demand and 1½d lower. California wheat nearly due and for shipment was 3d higher.

Chicago Money.

CHICAGO, April 10.—The clearings were \$13,414,412. Foreign exchange ruled dull at \$4.86 for 30-day bills and \$4.85½ for sight drafts. Exchange on New York opened at par.

Local Bank Clearings.

Weekly bank clearings were \$1,360,260.75.

Before Judge Ensign.

Judge Ensign finished up his list of cases for today during the forenoon. In the divorce suit of Gottlieb Hollander vs. Frederica Hollander, a motion for temporary alimony to the defendant was heard and granted. The husband must accordingly put up \$50 for the wife, with which she may fight the suit, before it can go on. The cause of action is alleged to be the part of the wife, who has lived away from her lord for five or six years. The latter lives in Hermantown.

No. 60, Dorothy Lloyd vs. Catherine Williams, was passed; No. 52, Eliot Lord vs. E. R. Jefferson (as county commissioner), dismissed; No. 46, Gustie R. Smith vs. James B. Soule et al, continued; No. 62, referring to the estate of Wm. Hanna, deceased, dismissed. Nos. 59, 90, 91 and 92 were referred to Scott Rex. The following cases were added to next week's list:

Wednesday—Nos. 105, 107, 117, 120. Thursday—Nos. 123, 125, 126, 128.

Before Judge Stearns.

There was quite an array of prisoners indicted for crimes before Judge Stearns this morning. Mike Kosulka, indicted for assault in the second degree, pleaded not guilty and was set free on furnishing \$500 bail. Edson & Edson are his attorneys. George Rosenberg, charged with grand larceny in the second degree, was given one day in which to plead; Robert Sickland, who was indicted in a row at Floodwood, was arraigned for manslaughter in the first degree and pleaded not guilty. His attorneys are Edson & Edson.

D. M. DeVore was appointed by the court to defend Chas. Doran, charged with grand larceny in the second degree. The bail of Benjamin Johnson, charged with assault in the second degree, was dismissed as no indictment was found against him. No. 63, W. Gallieus vs. Michael Day, and No. 98, S. E. Smith vs. J. C. Mahler, were dismissed. A verdict for the defendant was returned in No. 54, W. A. Wagner vs. John Schultz. No. 74, T. B. Hiewkes & Co. vs. Rasmus Johnson, a suit to compel payment for goods sold, is now on trial. The case of Henry Savage vs. C. W. McFadden was dismissed. Dan McDougall, charged with assault on a Chinaman, was ordered released. The calendar for the next six days has been arranged thus:

Saturday—Nos. 98, 100, 103. Monday—Nos. 104, 106, 109, 110, 111. Tuesday—Nos. 108, 112, 113, 114, 115. Wednesday—Nos. 116, 118, 119, 127, 138. Thursday—Nos. 35, 121, 124, 129, 38. Friday—Nos. 130, 140, 141, 17, 53.

Court Notes.

Trager, Chapman & Co., of Cincinnati, have taken default judgment against Louis Murray for the payment of \$676.95, due for whisky sold defendant. The same firm has taken default judgment against Murray & Trudel for \$91.

C. Poirier and Joseph Le Page for \$249.55 due on goods sold defendant. The same plaintiff sees Clark & Waddell for \$422.75.

Pete Thompson and Wm. H. Edwards have been granted second appearances. A marriage license has been granted to Francesc Malmorski and Postanycja Horzenska.

In Police Court.

Herman E. Long was found guilty of obstructing a street and fined \$5.36.

MILLER HATS!

SILKS AND DERRIES! SPRING STYLES.

Now in. Style and Quality Unexcelled. Call and See Them.

KILGORE & SIEWERT

ST. LOUIS HOTEL BLOCK.

New line of Neckwear from Virgoe, Middleton & Co., London, soon to arrive.

Wheat and corn oil coast were steady, and on passage quiet but firm. At Mark Lane wheat was firmer, and steady for corn. The French markets were quoted as very firm.

Chicago Money.

CHICAGO, April 10.—The clearings were \$13,414,412. Foreign exchange ruled dull at \$4.86 for 30-day bills and \$4.85½ for sight drafts. Exchange on New York opened at par.

Local Bank Clearings.

Weekly bank clearings were \$1,360,260.75.

Before Judge Ensign.

Judge Ensign finished up his list of cases for today during the forenoon. BLAINE IS IN IT.

If He is Tendered the Nomination it is Understood He Will do no Declining

Although He Does not Feel as if He Should, or Could, Work For It.

Reciprocity With Spain is the Next Move on the Trade Program.

New York, April 11.—A special to the Sun from Washington says that Secretary Blaine, smarting under the unmanly interference between the President in his Canadian negotiations has asserted some of his friends that he would not withdraw his name if entered in the presidential race in 1892.

According to the Sun two of Blaine's friends, citizens of a distant state, called on him Thursday night and demanded his consent that they should go to work fixing up their delegation for Blaine in the national convention in 1892. Mr. Blaine, according to those men, said that he would not be a candidate against Mr. Harrison, and was himself for Harrison's re-nomination. To this one of the callers replied:

"We don't want Harrison and the country does not want him. We want you. While it is true that you can't come out as a candidate, you can promise us and other friends that if we go to work for you you won't withdraw your name or write any letter of declination. Will you promise that?"

Mr. Blaine's friends say he will promise and they left him determined to go home and whop it up for Blaine in 1892.

EXPECTS TO LIVE.

But Will Still Work as Hard as He Can.

WASHINGTON, April 11.—The Ohio republican association gave a reception last night to Secretary Foster, which was largely attended by Ohio people. The secretary made a pleasant little speech, in which he said that his appointment as secretary was expected, but he was gratified at the general approval of the President's action by men of all parties in Ohio, and by the fact that it had been favorably received in all parts of the country.

He did not intend to limit himself, but would endeavor to give strict and careful attention to the duties of the office, and that when he should retire he might win the approval of the country in general. He had already counted on resigning, but the position was most responsible and arduous, but would bend all his energies to meeting the demands made upon him. Brief speeches were made by Senator Sherman, Assistant Secretaries Spaulding and Nettleton and others.

WITH SPAIN.

Reciprocity With That Country Probably Assured.

WASHINGTON, April 11.—It is believed to be true that the basis of a reciprocity treaty between the United States and Spain has been agreed upon between Premier Castillo and Gen. Foster, but no official statement in regard to the matter could be obtained from the state department yesterday. When asked last night whether a reciprocity treaty with Spain had been negotiated Secretary Blaine merely replied that negotiations have not been concluded.

Butterworth on Reciprocity.

WASHINGTON, April 11.—Hon. Benjamin Butterworth, in speaking of Ohio reciprocity, said: "A proper reciprocity with Canada, such as Mr. Blaine proposes, is sure to be a fact some day. Why not let it come gradually, instead of making the change radical, as it will be sure to be if it is delayed too long? Yes, I saw that the Canadian commissioners were sent home. I am sorry for it, but I must believe that there were state reasons for the President's action. I cannot believe that he acted in a petulant spirit or intended any snub to Blaine. There never was anything more unwise than the barrier which we have erected along the Canadian border, and some of these days we will see it swept aside with great benefit to ourselves and to Canada. It will come as sure as fate."

The Italian Outlook.

WASHINGTON, April 11.—Whether Blaine has decided whether he will make public any additional correspondence with the Italian government concerning the New Orleans affair, concerning the dispatch from Rome stating that Mr. Porter, the United States minister at Rome, would be ordered to leave Italy if Blaine does not answer Marquis Imperiali's note today, Mr. Blaine will say nothing further than that the statement made by him last night that he knew nothing of it covers all he has to say about the matter.

Appointed a Negro.

WASHINGTON, April 11.—Ever since the world's fair commissioners were appointed last year the President has been importuned to appoint a negro upon the commission. A vacancy recently occurred in the list of commissioners at large. E. W. Farness, of Nebraska, an alternate, was promoted, and Hail G. Parker, of Missouri, was appointed an alternate at large.

Sold His Wife for \$5.

CHICAGO, April 11.—Abraham Messie was arrested last night charged with having eloped from Lima, Ohio, with the wife of Benjamin Blake. Messie denied eloping with the woman, and to prove that he intended no wrong produced a written document, signed by Blake, which states that in consideration of \$5 he renounced and relinquished all claim to the affections of his wife and turned her over to Messie. Blake is 50 years of age, while Messie is about 21.

A Double Murder.

WAUKESHA, Wis., April 11.—At 10 o'clock last night Christian Preise, aged 75, and his wife aged 71, were found lying nearly naked on the floor of their home, the wife dead and the husband dying. It is supposed to be a double murder.

DRIVING OFF SETTLERS.

Pierre and Oklahoma Scenes Re-enacted in Washington. Tacoma, Wash., April 11.—Within the last few days a number of men have settled upon the various Indian reservation lands across the bay from Tacoma and built houses thereupon, intending to claim squatters' rights when the reservation is thrown open to settlement. Agent Ellis, of the reservation, accompanied by a detachment of Indian police, yesterday informed the settlers that if they were not off the reservation by 1 o'clock he would burn their houses and run them off. The settlers' attorney obtained a restraining order from the superior court and the case now awaits a hearing.

Barnum's Will.

BALTIMORE, Conn., April 11.—The will of F. T. Barnum is a voluminous document. It was written in 1882 and changed later. By a codicil dated July 26, 1890, he bequeathed his wife \$100,000 absolutely and \$40,000 annuity; to the First universalist church of this city \$15,000, also \$300 annuity to the church for five years. Besides bequests to the family and old friends and assistants, to Tufts college he bequeathed \$40,000, also sums to numerous religious and charitable institutions from \$1000 to \$5000 each. His physicians are all remembered. The trustees provided that his executors shall complete his new Historical and Scientific society building in this city, the same to cost \$125,000.

A Hustle Among the Prof's.

New York, April 11.—Actors and actresses who are about to give members of the Dramatic Agents association will be placed on the black list after 12 o'clock tonight when the two weeks' period of grace extended to them expires. Delinquents whose names are posted will find it difficult hereafter to obtain engagements in the companies controlled by the association. The list includes Gustave Frohman, James J. Armstrong, Milken & Curtis, J. J. Spies, Hermann Goldman, Tony Smith and J. Alexander Brown. Over 100 professionals, male and female, of more or less prominence, are liable to go on the list.

NEWS OVER SEA.

The Latest Phase in the Italian-Imperialist: As to the American Navy.

LONDON, April 11.—The Globe in commenting on the leader in the Times on the American navy says:

"No one of the American war ships appears to be very formidable. It is some consolation to know that in the opinion of competent judges the inferior length and weight of these American vessels leave them no chance of catching such steamers as the City of Paris or Teutonic in a contingency, which we certainly hope is in the highest degree improbable. It would be necessary to see these vessels, backed up by its enormous wealth, to create a navy and indulge in speculative experiments, attempting to improve on all that has heretofore been accomplished, and bringing to the task the energy and cleverness of the most ingenious nation in the world."

Belligerent Italia.

Rome, April 11.—Several newspapers say they can report that in the event of the Italian government not receiving a reply to its last communication to the American government by April 15, the minister of the United States will be requested to withdraw.

The Racer Will Race.

LONDON, April 11.—The work of replacing the engine in the steamer City of Paris, of the Italian line, is nearly completed, and the vessel will sail for New York on May 13, as heretofore announced.

Chilian Ports Blockaded.

SANTIAGO, Chile, April 10.—The government has declared closed the ports of Valparaiso, Talcahuano, Concepcion, Iquique, Ouelabene, Jauin and Pisagua. All vessels attempting to trade with those ports are liable to confiscation.

A Brick Combine.

New York, April 11.—The manufacturers of brick have formed a permanent combination with a cash capital. The combination "has been incorporated in New Jersey under the name of 'The Associated Brick Manufacturers of New York and New Jersey and of the City of New York.' The capital stock of the combination is \$200,000, divided in 200 shares. The incorporators, who are well known in the trade in this vicinity, have each one share of the stock. The building trades union has taken the lead in the combination to keep down labor.

Taken by a Bear.

HART, Mich., April 11.—Yesterday afternoon little 5-year-old Eddie Liebs went with two older brothers into the sugar bush, half a mile east of his home, where the boys were gathering up. Eddie strayed away and was lost. A general alarm was given and fully 300 men formed a line and swept the woods for several miles about the place where the boy was found, but bear tracks were seen, and it is believed the bear took the child.

Following Oil Ship Methods.

PHILADELPHIA, April 11.—The arrival in this city of a British steamship from Havana with half a million gallons of Cuban molasses in bulk in its hold has created great interest in shipping circles. The cargo was pumped into the hold from lighters in Havana, and was discharged here by pumping it into tanks built at the boiling establishments to receive it.

Donahue Will go to the Association.

KANSAS CITY, Mo., April 11.—James Donahue, the star catcher of the Kansas City baseball club, yesterday submitted his final terms to the club, asking for \$2500 salary, stating that unless these terms were accepted he would go to the American association. It is thought that Donahue will join the Columbus club.

World's Fair Officials.

CHICAGO, April 11.—At the first meeting of the second board of directors of the World's Columbian exposition last night, J. W. Scott, of The Herald, was nominated for president. Mr. Scott declined, his declination was not accepted and the committee proceeded to complete the ticket by the re-nomination of all of the officers.

AN EXCELLENT END

The Severely Radical Railway Legislation Failed for Minnesota Will Not Become Law.

Senator Hompe's Bill Recommended for Passage by House Committee of the Whole.

This Defeats the Draconic Alliance Measure Known as the Currier Bill.

ST. PAUL, April 11.—In the house this morning the Hompe railroad bill, already passed by the senate, was considered in committee of the whole and recommended for passage. Senator Hompe is an alliance member, but the members of that party in the house, led, until today, by the radical republicans and democrats of the house, refused to have aught to do with his bill considering it not sufficiently radical.

The house bill (Currier's) was a decidedly radical measure and was defeated by the combined republicans and democrats of the house. The favorable action on the Hompe bill today was unanimous and the result will be the present settlement of radical railroad legislation in Minnesota.

The present railroad law is untouched by the Hompe bill, its chief new provision being to allow appeals and thus bring the present law within the limits of recent decisions of the supreme court. In the senate the Leavitt bill repealing the present law, taxing the output of mines one cent per ton and bringing mines under the general tax law, was amended by a substitute measure making the tax three cents instead of one cent.

Lost Several Families.

ALBIA, Iowa, April 11.—In the last days of March, Engineer John G. Roberts, of the Union Pacific, took his train through a blinding storm and was killed in a collision. A year ago Engineer Roberts met Miss Sadie Taylor, a young lady from Albion, at the home of her brother in Lincoln, Neb., and fell in love with her. Later an accident occurred in which Roberts was badly mangled. The young lady nursed him back to life. During his illness here he executed a will in her favor, deeded her a house and lot in Lincoln and made her the beneficiary of an \$8000 life insurance policy. On learning of his tragic death the father of his sweetheart hastened to Nebraska to bring home the remains for interment. On arriving he found an alleged divorced wife, Roberts was wealthy and it is rumored that several heirs will contest the validity of the will.

A New Northwestern League.

TOLSON, Ohio, April 11.—The Northwestern Baseball league was born here today, and a good circuit formed. Detroit, Dayton, Bay City, Grand Rapids, Peoria, Evansville and Fort Wayne were represented; these with Toledo form the league. The season will be five months or 120 games, and will open May 9. Valentine H. Ketchum, a young Toledo millionaire, was elected president.

Jamestown, N. Y.—The New York, Pennsylvania and Ohio Base Ball league was formed here last night. The cities included are Jamestown, Olean, Elmira, Bradford, Erie, Meadville, Oil City and Youngstown.

Quiet Reigns at Morewood.

MOUNT PLEASANT, Pa., April 11.—The Eighteenth regiment left the coke regions this afternoon. The Tenth regiment will return and be re-established this afternoon. The return of the troops causes very little anxiety, as it is now generally considered that the trouble over coke is over, and that the Tenth regiment will be able to cope with any possible outbreak. General Manager Lynch, of the Frick company, says that the strikers are virtually defeated and reports the Jintown, Adelaide and other plants operating in full. The company will ship 100,000 tons of coke today and all the ovens are in operation that they desire at present.

Another Fair Feature.

CHICAGO, April 11.—A convention of leading German musicians of the Northwest will open here tomorrow for the purpose of organizing a German singing society of the country to put their local societies in active training with a view to the formation of a grand chorus of 500 voices, with a view of giving German song the position that it deserves to occupy. It is thought that a grand chorus of such societies would be a great feature of the fair.

Arrested Pool Sellers.

New York, April 11.—The jury in the case of the indicted pool sellers, which was locked up all night, arrived at a verdict this morning in the court of Oyer and Terminer. They found Samuel Fisher, one number, guilty and acquitted the others. Henry Jones, Charles W. Spencer, Thomas Edgeworth, John J. Murray, Edward Harris and James Guion.

A Cardinal from St. Louis.

ST. LOUIS, April 11.—Rev. P. P. Brady, vicar general, will issue a call for the Roman catholic archbishops and bishops of the United States, together with the priesthood of the diocese, to assemble in St. Louis to make arrangements for the golden jubilee of Archbishop Kenrick, of St. Louis. He will also be nominated for the position of cardinal.

Ex-President Polk's House to be Sold. NANTUCKET, Tenn., April 11.—Nearly \$2000 in taxes is due upon the home here of the aged widow of President Polk, and it is advertised to be sold. The property is very valuable and Mrs. Polk is abundantly able to pay the taxes. It is hardly possible that she is ignorant that she is in arrears.

The World's Fair Mine.

SALT LAKE CITY, Utah, April 11.—The chamber of commerce and mining exchange World's fair committee have made a report endorsing the deep mine model exhibit for the World's fair. The report says it is worthy of the best support of the citizens of every mining district in the United States.

A Lost One Found.

HOUQUINVILLE, Mo., April 11.—The body of Joseph Norz, who disappeared about a week ago is found. It is supposed to be a case of suicide.

THE NEW GOVERNMENT BUILDING.

The Herald presents in this issue a cut of the government building to be erected here this summer. Nobody in this city knows anything about the details of the building, and but very little of the general features. At a glance it can be seen that

The building will have 135 feet front on First street and 70 feet on Fifth avenue west. The first floor will be devoted to the postoffice, the second floor to the custom house, hall and boiler inspectors' office, marine physician's office and revenue collector's office; the third floor to the United States district and circuit courts and the tower to the signal office. If the postoffice becomes too crowded it can utilize the basement. There will be space enough at the rear to double the size of the building when necessary without injuring its plan.

It has been found that provision was made by the legislature of 1889 for the erection of the land to the government, and so the St. Louis county delegation were telegraphed this morning. O. G. Traphagen has been appointed superintendent of construction and expects to get the foundation in this season and the exterior walls well started.

ANOTHER NEW BANK.

Clark & Crossley to Establish a Private Banking House at West Duluth.

Clark & Crossley, of Duluth and Northampton, Mass., have decided to establish their third bank. West Duluth will be the lucky town this time. Mr. Crossley this morning informed The Herald that he was now figuring on the material for a 4-story brick business block, trimmings with brownstone, to be located on the corner of Central and Grand avenues. West Duluth, diagonally opposite the site of the proposed hotel, and in this building the bank offices will be located.

The property is known as lots 1, 2 and 3, block 127, and has 100 feet frontage on Grand avenue, ten feet on the corner and 135 feet on Central. The first floor will have four stores, the corner one to be occupied by the bank. The second floor will be devoted to offices and the third and fourth to apartments. The building will be the first business block in West Duluth to have an elevator. The finishing will be first-class throughout. In speaking about the bank, Mr. Crossley said: "We have not arranged the details as yet and consequently I cannot give you all the points you would like. One thing is settled—the bank will be conducted in a manner similar to that of the Duluth institution. It will not be a bank of deposit, and its person cannot be had at the bank. It will be a deposit we would refuse him."

"We get our money from the East, have no stockholders or depositors to lamp us in our actions and consequently have few petty annoyances. The institution will be conducted on a strictly business basis. If you have paper you bring to us, no matter whether we like you or not, we will take it if we think there is money in it. If we see what we consider a bargain in real estate we will take it. We are well pleased with our business in Duluth and expect that West Duluth will have a great future. That's just what there is in our plans just now."

Since the absorption of the Bank of West Duluth by the Manufacturers bank the village has had but one banking institution, and though the manufacturers will increase its capital to \$50,000 there is abundant room for such an institution as Clark & Crossley have decided to establish. It will bring to West Duluth a good deal of new capital.

THE STRIKE SPREADS.

Burlington Strike May be General in a Day or Two.

DENVER, Col., April 11.—The switchmen in the Burlington yards struck this morning. A meeting of the switchmen which had been in session all night ordered the men out. The ground for the strike was that the position taken by the Burlington was unfair. The strikers number about fifty men and include both passenger and freight switchmen. Not a wheel is moving this morning. Lincoln, Neb.—Grand Master Sweeney and Newman, of the Brakenmens union, are consulting and it is given out that either a settlement or a general strike will occur in the next two days. The railroads are running men into Lincoln, but the strikers are getting them out of town again.

Lynch Law Necessary.

NEW HAVEN, Conn., April 11.—Ex-Minister Edward J. Phelps speaks of the action of Italy as rash and precipitate. He said that to his mind the course pursued by the citizens toward the Mafia was justifiable. Lynch law was the legitimate recourse of the people after the regular machinery of justice had failed. His disapproving incidents were a penalty that we paid for our liberal form of government.

The Powebic Fire.

HONOLULU, Mich., April 11.—The Powebic fire is still raging and a dense smoke is issuing from the three shafts. Superintendent Harris has ordered the destruction of the shaft houses as near as save other valuable property when the fire shall reach the surface. The total destruction of the main engine is now feared.

A Small Tornado.

MARION, Ind., April 11.—A small tornado removed a large factory building from its foundation here yesterday, damaged others, and played havoc generally in the western part of the city. The storm affected only a narrow strip.

Adapted to the wants of all, Peoples Savings bank of Duluth.

AFTER TESTIMONY.

The Prosecutors in the Wheat Investigation are Hard up for Needed Testimony.

So They Apparently Attempt to Win Their Case by Offers of Bribes.

Labor is Plenty and Wages Will Rule Slightly Lower Than Last Year.

The Herald thinks it has a bit of a sensation relating to the present wheat investigation.

It was informed by a man in whom it has great confidence, that J. W. Preston, who, up to the time Governor Merriam first came into office, was first assistant state inspector at this point, had been approached by a party representing the prosecuting side for the purpose of getting him to testify in the matter. Mr. Preston, according to the account, refused to have anything to do with the investigation in the manner in which this party desired, whereupon he was promised the position of Chief Deputy Weighmaster Fulton, if he would comply. Even this he refused to do.

The ex-grain inspector was seen at 2 p. m. today, just as he was about to take the train at Twentieth avenue for West Duluth. The interview was, of course, very short. At first Mr. Preston smiled, looked wise and said in a confused way that he didn't care to either deny or affirm the story as given above and that he didn't think a newspaper statement by himself would do any good in the matter. It was not until he was told that the story would be given for what it was worth that Mr. Preston undertook to deny anything. His denial was that he had not been given a promise of Mr. Fulton's office. The denial would have had something of weight with the reporter had it not been for Mr. Preston's manner during the early part of the interview.

Chief Deputy Grain Inspector Fulton, Chief Deputy Weighmaster McManis and Chief Registrar Porter were this morning subpoenaed to appear Monday before the legislative committee to testify on the alleged wheat steaming. The Duluth elevators. They are ordered to take along the books of the department from 1885 to 1891, and are now hustling for a train to carry the documents. They go tomorrow.

LABORERS' PLENTY.

Wages Fair, but not so High as Last Year.

There is a great plenty of laboring men in Duluth at present, and indeed throughout the Northwest. A visit to an employment agency brought out the fact that men are being refused work in great numbers every day. "The demand," said the agent, "will increase about the 15th, when several contracts will be entered upon. But there will be at no time this season be such high prices for labor as last year. The present price is \$1.50 per day and the maximum will probably be \$1.75. Last year it went up to \$2.25 and some could not be had at the last named figure. "A short time ago on account of a dispute between the railroads and employment agencies. The railroads had been charging one cent a mile to take laborers out and they suddenly raised the rate to the full charge, four cents. They got men to go away out there at such rates. We expect the matter will be settled in a few days."

One reason that there is a great supply of labor this spring is that the men who went two years ago to the South to see and other states in the middle South are returning in great numbers, some because of lack of work and others because they don't like the climate down there. St. Paul, Minneapolis and Duluth have received back fully 10,000 of them this spring.

FOUNDING THE RIVER.

No Hindrances to Navigation as Far as Fond du Lac.

A party of four government engineers have for some weeks been surveying the St. Louis river and taking soundings as far as New Duluth. They will continue the work up to Fond du Lac. They found that the channel had changed but slightly since the surveying of 1884 and 1885 was taken.

One of the party informed The Herald that he was surprised to find that the river was well adapted to navigation. The greater part of the distance there was from sixteen to thirty feet of water. In no case did the depth fall below twelve feet and then only for very short distances. "The shallow places," said he, "could be dredged for a song. There is nothing in the world to keep the towns up the river from having a great lake commerce."

With Her Star Boarder.

CHICAGO, April 11.—Mrs. Jennie Turville, a plump and pretty blonde of 30, who has been running a fashionable boarding house, closed yesterday with Geo. Ritchie, the state treasurer. The police learned that Mrs. Turville purchased tickets to St. Louis for herself and Ritchie, and an effort will be made to arrest the pair, who are supposed to have started for Texas.

Probably Fraudulent.

E. R. Cummings and another young man, claiming to represent the Chicago Times, have been in the city for a few days, during which time they have raised some discussion as to their methods. Some months ago other parties claiming to represent the same paper were here to gather information for a write-up in the Times, and the newcomers are here to show the write-ups and collect money on them. They show several names and varying amounts. In two instances these names were found to have been used without any authority—Stryker, Manley & Buck and Stone & Ordean. The former firm was given for \$30, which sum it never agreed to pay.

PHILLIPS & BUELL,
SAMUEL A. PHILLIPS,
ELMER BUELL,
M. B. HARRISON.

THE MARCH OF THE NISICOTT.

A Yokohama correspondent of the New York Times, presumably an officer of our Asiatic squadron, makes some interesting comments on the struggle that is impending between the lion and the bear for the control of the Orient.

"Already," he says, "this Great Britain began to take cognizance of the increase of Russian influence in this section of the world, and is taking measures to counteract it as much as possible, by restricting the privileges of foreign vessels, as is evidenced by the prohibitions placed upon the harbors of Singapore, Colombo, and the various Australian ports, hoping thus, by unfriendly moves, gradually to impose such onerous burdens and expenses upon foreign shipping as will eventually drive them from the seas, or at least from the benefits of English colonial ports. But when one examines the rapidly increasing merchant tonnage of Russia and sees her magnificent 'volunteer fleet,' which is nothing more than vessels of war with their guns removed and used in the peaceful traffic, it is easy to believe that the aim of such a country for the control of the East is not to be thwarted by petty moves, and needs only time for its accomplishment."

Perhaps it ought not to be, but in such a contest, as now appears quite possible, the sympathies of Americans would be overwhelmingly with Russia, despite the stain of absolutism and the terror of Siberian exile. England's long career as the Robber Nation has won for it the pronounced aversion of most of the other countries of the world, and Americans cannot but feel that we were in Russia's place, struggling for political and commercial position in the Orient, the British would not scruple to resort to the same methods of enmity that they are employing against the czar. England poses as the great free trade nation, and professes to give fair play to all comers in its ports, but having been the robber of the East, she is now posing as a hypocrite and imposing "onerous burdens and expenses" on traffic.

The talk of European war has been rife for years, actual collision now seems nearer than ever, and though each nation that is likely to be involved is fully aware that for it the stakes are desperate and the game terrible, advances seem to indicate that there cannot be long delay in conflict.

WILL WEAR BLOOMERS.

The McHale bill to prevent the wearing of tightness on the theater stages in Minnesota is attracting much attention throughout the country. Newspapers of every class use considerable space in poking fun at the legislature that threatens to interfere with the stage by becoming its censor, and managers talk bitterly against the farmers for interfering in such matters. Last night the house as a whole attended the performance of the Crystal Slipper company at St. Paul to be able to vote "intelligently" on the bill that has already passed the senate. From all that can be learned it appears that there is a good chance of seeing the law enacted. Whether it would be enforced is another question.

Five weeks from next Monday night the Bostonians will open the new Lyceum theater, provided the work of finishing it can be done according to program. If the McHale bill is a law the opera intended for production will have to be somewhat modified, as there are

tights in it. Manager Haycock does not seem to be losing much sleep over the legislation. Said he: "I don't believe that it would be enforced if it carried, and were it enforced the companies would make big money by the advertising they would get."

Some people, and they are not a few, believe that the passage of the law would have the effect of keeping a large number of companies from entering Minnesota. Doubtless there are many theatrical organizations that would be pleased at this, as the business would not be overdone and their own receipts would be increased. There are several first-class show towns in the state and there is no danger that they will be affected to any great degree by the proposed legislation. Where money themselves to the existing conditions. In fact there is to be an ocular demonstration of what the McHale bill will do for the ballet in Minneapolis Monday night. The Wilbur Opera company will present "Climes of Normandy," every girl or man in the cast wearing the conventional and not altogether artistic bloomers. A special invitation has been extended to the legislature and a box is reserved for Mr. McHale.

But one question is cannot the bill be easily evaded? It provides that "Any female person who shall upon the stage expose her nether limbs dressed only in tightness, or in any manner so that the shape and form of her limbs or limbs are plainly visible," etc. Mr. McHale so delightfully innocent as never to have heard of "plumbers." And if a girl wears plumbers to fill out asymmetrical legs she clad "only in tightness" or "the form and shape of the nether limb or limbs plainly visible?" Statesman McHale should ponder this point of view.

A SERIOUS MATTER.

A dispatch from Winnipeg in The Herald yesterday said that the Northern Pacific had offered to sell out its whole system in Manitoba to the Canadian Pacific railroad, and that there was a probability that the offer would be accepted.

Northern Pacific officials deny the story absolutely and state that it was probably started for political effect in the province. It is to be hoped they are correct. While Duluth would suffer by such a sale the temporary loss of a certain amount of traffic, the people of Manitoba would at once be relegated to the condition they formerly endured, and to escape from which they have paid the Northern Pacific many hundreds of thousands of dollars. They would be once more bound hand and foot by a monopoly which, though a beneficent interest of vast proportions, is so only in its own way and for its own good.

Sale or no sale, the agitation that will inevitably be caused by the rumor will have its effect in unifying Manitoba sympathy in favor of a direct road to Duluth and in granting the Winnipeg & Duluth the special privileges it asks.

James W. Scott, publisher of the Chicago Herald, is spoken of as the new president of the local board of directors of the World's Columbian exposition. It would be difficult to find anybody to exactly take the place of Lyman J. Gage, but if anyone can be had, Mr. Scott is pre-eminently fitted for the place. He is today, perhaps, the most representative newspaper man of the West. Raised in the West he shares its spirit and its progress. As a man of executive abilities he has displayed a tact and a discrimination as honorable as it has been successful. The invincible qualities of unimpaired honor, a genuine diplomatic endowment in meeting and dealing with all classes of men, unbounded popularity and the unqualified confidence of the profession he honors all over the country, fit him singularly well for the office. No journal has rendered the Columbian exposition more valuable service than the Chicago Herald. Mr. Scott has made it all his life. Few, if any, citizen in Chicago is in position to give to the exposition more valuable and representative service. Truly one more for the newspaper man. He keeps a coming.

The Herald is now established in its new home in the Chamber of Commerce building. The business office is in the Superior street entrance, room 102, the editorial and composing rooms at 413 Michigan street in the same building. Within excellent location, the best equipment of any newspaper in Duluth—with the exception of fast press facilities which will be added at once—and an afternoon telegraphic service which has no equal, The Herald is making rapid strides toward the goal it is bound for—to give the Duluth afternoon paper that the city can be proud of.

In the Wisconsin legislature a bill to exempt the Bee Line & Superior railroad from paying license fees for ten years was definitely postponed the other day. The line, which it is proposed to build from Milwaukee to Superior is not a land grant road. Bills have not unfrequently been passed exempting this class of roads from taxation for a term of years. The road is still on paper, and the old lines have worked against it. And it is now highly improbable that it will be built at least for years.

The Herald is gratified to note the facility with which the chamber of commerce gets down to business when occasion requires. Tuesday this paper urged immediate action before the legislature in favor of the Duluth & Winnipeg land grant bill. Thursday the chamber of commerce met, passed resolutions and sent them to St. Paul. It is more than probable that the petition will have an excellent effect.

The attempt of French millionaires and bankers to organize a copper trust having disastrously failed and brought ruin to all concerned, American plumbers are to try their luck at it. It must have been a good winter for plumbers.

Adapted to the wants of all Peoples Savings bank of Duluth.

SEEN AND HEARD.

"It isn't a good idea," says the doctor, "to put on spring overcoats or spring undergarments. April weather is apt to be changeable, and dangers lurk in the cold, damp spells. It is a spring month, and lighter garments are in the order of fashion and custom; but it is well to look out for the grip and such things when the skies are beautiful."

Now that the silver spoon is the acceptable fat as a souvenir, some Duluth jeweler will do well to get out a Duluth spoon before summer travels in. Let him have a real one, a real one with a souvenir's name, a real one of wheat, silver or a design with Front and Gill and Burke and the rest of the diamonds dividing the north among them, or, well let him have anything that will represent Duluth, and I'll wager there'll be money in it. A dozen cities in this country have followed the fashion of souvenir spoons, set years ago in Switzerland and Milan, and the latest is Bridgeport, Conn. It bears a portrait and signature of Barnum on one side and a text on the bowl.

The spoon fat takes queer forms now and then. A lady noticeable for her gay spring dress since Easter, has of late attracted more than her fair share of attention on account of the old pin she wore at her neck. It was a full-sized silver coffee spoon of quaint device, probably one of the suddenly fashionable souvenir spoons. Since then a number of ladies have been noticed afterwards on the up-town streets with similar pins at their throats.

MR. HERING ANSWERS.

The Eminent Specialist Says Objections to the Bassett Sewage Disposal Method.

The department of public works is in receipt of the following communication from Rudolph Hering, a civil engineer, and very engineer of New York city, who, in conjunction with Andrew Rosewater, of Omaha, planned the system of sewerage now in operation in this city. Mr. Hering says:

"I am in receipt of a marked copy of an article by H. H. Mitchell on the subject of Duluth sewage. I cannot remember whether I ever met the gentleman, and several engineers whom I have asked do not know him. He is not a member of the American Society of civil engineers. I have read over the article with some interest and find that he fairly well reads on some of the questions he writes about. He is greatly at fault, however, if he thinks that the Duluth sewage should be purified in the same manner as at East Orange, Providence and Worcester, which he mentions. I happen to have been the engineer who advised the treatment now in use at East Orange, and also one of the engineers recommending the same treatment at Providence. The reason for this recommendation was the fact that it was the last resort, not because it was the best method per se. I may mention that the cost of purification in East Orange, which is not as large as Duluth, runs up about \$8000 a year. At present there is a movement to unite the sewerage works of certain towns in New Jersey and build a common main sewer to tide water, and then East Orange will abandon its purification works. I might add that 'precipitation' does not purify the water, it simply clarifies it, leaving from 10 to 20 per cent of the putrescible matter contained therein, so that the effluent water from the works, if kept standing for twenty-four hours in a bottle, will develop a strong odor and become turbid. It is necessary to slowly filter this effluent through sand and if thorough purification is to be accomplished; all this requires land, chemicals, labor, etc., which means expense. Purification by sand filtration accomplished by aeration of the effluent water which is done directly or indirectly by forcing air through it. It is most likely accomplished through the aid of bacteria, as Mr. Mitchell remarks. 'The present manner in which the sewage of Duluth is purified does not essentially differ from the above method. The foul matter is greatly diluted and exposed to the oxygen dissolved in the lake water. The bacteria here again are probably the real scavengers. Therefore you are accomplishing the same object without any expense.'"

"Regarding the matter of water supply, it would be unwise to take the water from the front of the city, even if the sewage from the city was kept out of the lake. Think of the water which washes the streets of your city during a rain storm, and the water which runs down the gutters into the lake. And think of the dirty water which enters the lake in the harbor from the fleet of vessels which come into it and are washed up for the return trip. Think of the dust in dry weather, which is carried by the wind from the city into the harbor, giving city dust index with bacteria, according to the present ideas of some of our prominent physicians. 'No city, either on the shore or on the border of a great river, or along the sea shore has ever undertaken to purify sewage in any other way than by dilution and I hardly think your citizens would be willing to pay for anything else, particularly as you would be obliged to go to a more distant point for your water supply, to get away from ordinary harbor pollution.'"

"The Honeymoon." Miss Walnwright and her company proved quite successful last evening and were heartily appreciated by a good-sized audience. The piece has for its main feature the subjugation by her husband of a forward and high-strung woman and in this respect is similar to Shakespeare's "Taming of the Shrew," in which Alice Riden made such a brilliant success in New York during a run of many months. As on the previous night Miss Walnwright did not prove a particularly strong character in the play, but she displayed sufficient talent to keep the interest from flagging. She does not stand so high above her support that the difference in the acting is marked. The company as a whole is an exceptionally good one. Wm. F. Owen as Jacques, Wm. Burgess as Orlando, Blanche Ward as Zamora and Louise Muldener as Volante, all deserved praise for the manner in which they contributed to the excellence of the representation. The company will play in Superior this evening.

THREE CENTS.

MINNESOTA
HISTORICAL
SOCIETY.

Great Eastern
Exclusive Handlers of Strictly
Tailor-Made Clothing

Overcoat Department.

Our Spring Overcoats are a happy compromise between the heavy attire which winter makes necessary and the summer style, which calls for no overcoat at all. They are simply moderate wear for moderate weather. There is perhaps no article of clothing which, in its manufacture, calls for the exercise of so much care, skill and taste. It can be made to combine the ornamental as well as the useful, and will show, perhaps, quicker than any other garment the effects of clumsy workmanship.

We do not claim that our Spring Overcoats are as durable as tempered steel, but they are exquisite in finish, perfect in cut and models of cheapness as to price. We have a Black Cheviot at \$10 which we believe is the finest coat which has ever been offered for the money. Our London Topcoats we show in all the latest colors of tan, fawn and bottled green.

We also show an elegant line in Short Box, Half Box, boys' outfits, single and double-breasted, strap and welt seams, with plain and patterned collars. Prices from \$10 to \$25.

In our boys' and children's department we have some nobby Spring Overcoats for little and big boys.

PRESIDENT'S TRAIN

Harrison and His Party are to Start Tonight for the South and West.

The South will Seize the Opportunity to Stir up its Industrial Boom.

United States Treasurer Huston Finally Breaks Away From His Public Job.

WASHINGTON, April 13.—The train in which President Harrison and party will leave Washington tonight for a tour through the South and West arrived here late last night from the Pullman shops in Wilmington, Del., where each of the five cars has been thoroughly overhauled and refitted. The exterior of each car is painted in Pullman standard colors, with lettering and ornamentation in gold. One car is inscribed "The Presidential Train." Next to the locomotive is the car "Atazlan," the library and smoker, with a large compartment for the baggage. The library and smoker is upholstered in seal brown plush. Behind the "Atazlan" is the dining car "Comodoro." The work of the dining room is painted white and the upholstery is in red plush. Next is the sleeper "New Zealand," upholstered in steel fawn plush, which is followed by the drawing room car "Idol."

Great preparations are being made in the Southern cities to receive the President. The schedule of the trip provides a five hours' stay in Birmingham, and a committee of fifty men has been appointed to take charge of the demonstration in the President's honor. There is to be a review of the military by the President, who will be shown the city under the most favorable auspices. The demonstration will be profuse. At all the other Southern stopping places there will be similar demonstrations.

SEALS INCREASING.

One Agent Testifies That Seal Extirmination is a Myth.

WASHINGTON, April 13.—F. B. Gregory of Victoria, B. C., is in Washington. He has been at Sitka collecting evidence in the Seward case. Just before he left Victoria a schooner with an Indian crew came in with 1200 seal skins which sold for \$15,000 cash. All the sealing vessels are at work now along the west coast and will be in Bering sea shortly.

The British government has not issued instructions to the sealing captains that the season is to be closed on pending negotiations between the United States and Great Britain. Most of them would take chances even if such instructions had been issued. Gregory thinks seals are increasing in numbers.

Huston Resigns.

WASHINGTON, April 13.—The President today accepted the resignation of John Huston as treasurer of the United States.

In accepting the resignation Mr. Huston said: "I have delayed action upon your letter of Feb. 24, tendering your resignation for reasons known to you. I now yield to your request to be relieved from the duties of your office. I regret that your personal affairs compel you to take this step, and beg to assure you of my sincere regard and best wishes."

Our New Treasurer.

WASHINGTON, April 13.—The President today appointed Anson H. Knebel, of Indiana to be United States treasurer, vice John Huston, resigned.

A Mexican Hall Storm.

SAN ANTONIO, Texas, April 13.—Passengers who arrived here yesterday morning via the Mexican National say that the train passed through a fearful hail storm near Fortoelle, Mexico, Saturday night. So large were the hail stones that the headlights of the engine and every part of glass on one side of the train were smashed in as if they had been struck by rocks. Several persons in the coach were injured, and a Mexican was killed.

Captured Because of a Pension.

PARKERSBURG, W. Va., April 13.—For twenty-five years Silas Slaughter, now 60 years old, has been a noted horse thief in this state. He applied for a pension last week in Calhoun county, and by this means he was identified and captured. He stole a horse valued at \$500 four years ago, deserted his wife, moved to this neighborhood, changed his name to Walker, married a wealthy widow and was living at ease until his arrest.

Sherman's Son.

St. Louis, April 13.—Father Thomas Being Sherman, son of Gen. Sherman, arrived here Saturday and was assigned to St. Michael's parish. He preached his first sermon as a priest before a vast assemblage yesterday. The church was packed to suffocation and the young priest made a good impression as an orator. Father Sherman was ordained a priest a year ago, but went to Europe and studied in a Jesuit college.

Italians Excited.

CHARLOTTE, N. C., April 13.—Saturday night John Mocco, an Italian fruit vendor, was killed by Henry Bradham, a colored gambler. Bradham was arrested and \$25 stolen from Mocco's store found on him. He was placed in a cell and closely guarded. The Italian residents are greatly excited, and a lynching is being planned by Bradham can be got.

Undertaken by Reports of Suffering. ABILENE, Kan., April 13.—Despite the reports of suffering in Topolamp, another party of nearly 300 leave Central Kansas today, most of them starting from this county. Nearly all are impoverished settlers and go in hopes of getting work on the co-operative company's irrigation ditches.

Murdered For His Money.

STOUT CITY, Iowa, April 23.—The body of W. S. Dooley, a wealthy farmer, living at Sargeant Bluff, has been found in the woods near his home. He had recently sold a lot of cattle and Saturday came to Stout City and drew his money. It is thought he was followed when he started for home and murdered for his money.

A Mine Explosion.

Black Hawk, Colo., April 13.—Frank Deegan and John Holak were probably fatally hurt by an explosion in the American mine yesterday. The shock was felt all over the city. The shaft house was sent flying in all directions.

ANNA EMPHATIC.

Anna Dickinson Gets Decidedly Emphatic in Her Speech.

New York, April 13.—The Sun says: A letter written by Anna E. Dickinson on March 25, while she was in the asylum at Danville, Pa., was furnished to the press yesterday. The letter is addressed to Rev. John Dickinson at Los Angeles. She says:

"This thing has not been done in a day. She (her sister Susan) must have had help. One and all want them found. If they are dispoed I want the full measure of justice given them that will teach them the rights of other people through some-what of an equivalent of the suffering they have entailed. If knives, I want hell's door in the world-wiped with them."

Pool Seller Shot.

LEXINGTON, April 13.—Hollid Holloway and D. L. Hardesty met at midnight and Hollid fired two shots at Hardesty's left thigh. Hardesty lay against the wall on almost the exact spot where three men were killed in years gone by. He was taken inside where he said Hollid shot him with a revolver. Hollid is well known to race goers throughout the country. Hardesty conducted a poolroom here three years ago in opposition to one kept by Hollid. Hardesty's physicians say his wounds are not dangerous unless unforeseen complications arise. Both are about 40 years old, and have families.

RUMORS OF WAR.

German, French, Russian and Servian Pointers Toward What Seems Inevitable.

LONDON, April 13.—A Paris dispatch says that the French naval authorities expect themselves as much amused at the Kaiser's proposition that in the next war the German fleet should destroy the enemy by one great coup. The French are confident of being able to maintain their maritime superiority to the Germans, whatever may be the case on land, and a leading admiral is credited with the remark that very few of Germany's vessels would survive the coup; that it would be a precedent for the future, and that the consequences to Germany that battle was to Italy.

In other quarters the Kaiser's remarks are accepted as indicating a set purpose to provoke a conflict with France and Russia and at no distant date. The manufacture of arms is being hastened, and the Russian forces will soon be completely equipped with the most modern weapons.

The report that the Kaiser has given up his hunting program in order to visit the fortresses of Alsace-Lorraine is not regarded as a sign of peace. He does not inspect himself the condition of Germany's frontier defenses in the direction of France, and will make a similar tour on the Russian frontier. The almost universal impression prevails in Germany that the Kaiser's mission is to secure the evacuation of Alsace-Lorraine, and that the Russian skulking in the direction of France is a mere pretense.

A STRING TO IT.

Austria Will Join, But Wants the Tariff Decreased.

VIENNA, April 13.—The report of the Art and Trades association to Margus von Beckenbach, minister of commerce, in response to the invitation of the government of the United States, asking that Austria-Hungary be represented at the World's fair at Chicago, was presented today. The report emphasizes the desire of Austrian manufacturers to participate, and urges as an indispensable condition of such participation that the artists and manufacturers should be officially supported by the imperial government in their efforts.

The report also requests the government to bring pressure to bear upon the government of the United States to secure the removal of any or modification of the McKinley tariff measures.

No Chance For Newfoundland.

LONDON, April 13.—The Times this morning expresses the belief that the Newfoundland delegates will be permitted to present their appeal to the law of the house of commons, but that is hardly probable that they will be able to change the intentions of the government with respect to the alleged grievances in connection with the United States. The paper also believes it would be the part of wisdom for Newfoundland to cultivate friendship with Canada, and amalgamate the interests of the province.

England's Rotten Aristocracy.

LONDON, April 13.—A warrant has been issued for the arrest of Capt. Edmund H. Torrey, R. N., a member of parliament for Northampton, on a charge of procuring a girl for immoral purposes. The identity of the culprit was discovered a few days ago and steps were at once taken, but it is believed that he has escaped. He is a leading county magnate, a magistrate and member of the London county council. The news of his disgrace causes a great sensation.

Not Pleasant For the Pig.

BERLIN, April 13.—Germany is in no hurry to remove the restrictions from American pork. The government has given no definite promise as to the time when Austro-Hungary is expected to open the door for pigs from the Balkans. It is believed the German government will delay action as to the American pork on one pretext or another.

Fred Grant in Rome.

ROME, April 13.—Col. Fred D. Grant, United States minister at Vienna, is visiting Rome and has been received by King Humbert.

Into a Land Slide.

PITTSBURGH, April 13.—The west-bound freight train which leaves this city for Cleveland at 12:35 a. m. ran into a land slide at Vanport, Pa., twenty-five miles west of here derailing the locomotive, baggage and mail cars. The baggage car is said to have gone over an embankment. Four trainmen and a number of passengers were injured. George Lehtinen, engineer and W. E. Brown, fireman, are said to have been so badly scalded that they will die.

A Mine Explosion.

Black Hawk, Colo., April 13.—Frank Deegan and John Holak were probably fatally hurt by an explosion in the American mine yesterday. The shock was felt all over the city. The shaft house was sent flying in all directions.

CALIFORNIA SHOW.

The Golden State's Great Orange Festival Show is Transported Bodily to Chicago.

Authors will Tonight Celebrate the Passage of the International Copyright Bill.

Miss Bayard's New Husband, the Swedish Count Levenhaupt Dies Very Suddenly.

CHICAGO, April 13.—Everything is in readiness for the opening night of the great Southern California Orange festival at the exposition building. Included in the exhibit are half a million oranges, among them are 100,000 Almas, 10,000 shadocks, 30,000 chills, 20,000 pumpkins, plumes and 6000 palm leaves. Los Angeles county is represented by a gigantic arch constructed of 70,000 oranges. In the center of the exhibition is a fifty foot tier in height made entirely of fruit, the construction of peach county. A mosaic mosaic has been constructed of 50,000 oranges. Among the other novelties is a street car made entirely of fruit, and a model of San Gabriel's old mission church covered with 25,000 tangerines. The opening ceremonies will be participated in by the mayor, members of the city council, a large number of prominent citizens, and many California pioneers of the days of 49.

AUTHORS CELEBRATE.

They Banquet in Honor of the Copyright Bill.

New York, April 13.—The autobiographies of several statesmen appear upon the registers of various hotels this morning. Among them are Hon. O. Platt, Hon. W. E. Simonds, ex-Senator Jonathan Chase, of Rhode Island; Henry Cabot Lodge, Asst. P. Fitch and William McKim, all members of congress; President Seth Love, of Columbia college, and the Count de Kenty. They are here to attend a banquet in celebration of the passage of the international copyright bill under the auspices of the American Authors Copyright League, which takes place tonight at Sherry's. Covers will be laid for over 200 guests.

The presiding officer will be E. C. Steadman. Mr. Platt will respond to the first toast as the guardian of the bill in the senate. Mr. Simonds will speak as its sponsor in the house, while ex-Senator Chase will tell of the trials and tribulations which he encountered before the measure was passed by the senate in 1888.

TEN DAYS MARRIED.

The Swedish Husband of Miss Bayard Suddenly Dies.

WILMINGTON, Del., April 13.—The death of Count Levenhaupt is announced. He was recently married to Miss Bayard, daughter of Secretary Bayard. His death occurred this morning. The wedding of Count Levenhaupt and Miss Bayard took place about ten days ago.

Unlucky Kate Castleton.

PAIDUPARK, April 13.—Kate Castleton, who in the last two decades has entertained tens of thousands of amusement lovers in her famous "Auld Licht" and "Footlights for ever." The once vivacious actress now occupies a ward in the Charity hospital at Eleventh and Cherry streets in this city. She will probably be compelled to remain at the hospital several months, and even should she partially recover, building the fact that she will be utterly unable either to dance or to exert herself to any extent for the future. This is tantamount to a death sentence on her professional career.

Died in a Hole.

CINCINNATI, April 13.—The body of Rev. Father Gordon, a catholic priest of Newport, Ky., was found lying in an excavation near a sidewalk in this city at an early hour this morning. It is supposed that the priest fell into the hole while walking in the darkness and his death was the result of suffocation.

Charges of Heresy.

New York, April 13.—The New York presidency met today and appointed a committee to investigate the charges of heresy against Dr. Chas. Briggs, of the Union Theological seminary.

Poisonous Puffs.

CHATTANOOGA, Tenn., April 13.—Forteen persons were poisoned in this city yesterday by eating cream puffs bought of a confectioner. None of the cases are likely to prove fatal. Arsenic is believed to in some way have become mixed with the ingredients.

Taking the Old People.

WHEELING, W. Va., April 13.—The grip has caused an extraordinary mortality among old people in this state during the past week. From Greenbrier county alone are reported deaths of five women between 91 and 99 years of age.

A Broker Suspends.

New York, April 13.—A. B. Stockwell, of the Consolidated exchange, has announced his suspension.

PEOPLE BY WIRE.

The family of the late P. T. Barnum, becoming alarmed by rumors that his body was to be stolen, have engaged several stalwart men to guard the tomb. Austin Corbin, president of the Long Island road, ex-president of the Philadelphia & Reading, and known as one of the largest owners of the stock of the New Jersey Central, was blackballed by the Union club. It is an interesting development of the antagonism of certain element in the Union club toward millionaires.

Berry Sullivan, the famous English tragedian, is dying at London. He is 67 years old.

The President has appointed Edwin A. Berry of Florida, counsel at Santos, Brazil, and Alonzo Spencer of New York, counsel at Rio de Janeiro.

Admiral Shufeldt retired, who has been ill for several days, is better today; but is still in a critical condition.

Hiram W. Blanchard, of Boston, the noted abolitionist, died today, aged 89 years.

HIS DESEETS.

A Negro Murderer Who is Lynched by a Mob.

ROANOKE, Va., April 13.—Alexander Foote, colored, who murdered J. J. Meadows at Bluefield, W. V., Tuesday, was hung Saturday night. Foote was arrested for the murder the day it occurred and was sent to jail at Princeton, accompanied by a guard. Parties of men from Bluefield followed, waiting for an opportunity to shoot Foote, but the guard kept him so closely surrounded that no opportunity was given to carry out their purpose. Thursday, Foote set fire to the jail and when the other prisoners raised an alarm they were taken out. Water was carried to Foote and he was told to put it out or take the consequences. About forty men left Bluefield Saturday evening for Princeton and the sheriff, in obedience to the mob, led the way to Foote's cell. Foote confessed to the crime and preserved a spirit of bravado to the end. He also confessed to killing three more men.

A Well-Known Newspaper Man Dies. New York, April 13.—Clifton W. Taylor, newspaper writer, dramatist and theatrical manager, was found dead in bed yesterday, at the home of his brother in Brooklyn, where he has lived for a month. Mr. Taylor was 55 years old. In the war he was the editor of a newspaper in Richmond, Va. He also served in the Confederate army and gained the rank of colonel. Later he wrote the play: "Kit, the Arkansas Traveler."

IN CHICAGO.

The Windy City has its Greatest Fire Since that of 1871.

CHICAGO, April 13.—One of the fiercest and most disastrous fires of many years swept through West Madison street yesterday. The big Saxothe building, that extends from Union half way to Halsted street was destroyed and with it the contents of John M. Snythe & Co.'s furniture store. All that is left of Kohl & Middleton's West Side dime museum is a heap of bricks and charred timbers. On the north side of Madison street from Union street to the Haymarket theater block, five buildings were destroyed. Three of them tumbled down before the fire. The total loss is estimated at between \$1,500,000 and \$2,000,000. An extraordinary feature of the conflagration was the lack of facilities. One man had his leg broken, a fireman was injured and two or three spectators were hurt, but none of them seriously.

Five hundred persons were in the lower hall of the museum when the flames burst out in the rear of the stage. Some one in the audience saw the smoke creeping out through the scenes and the alarm was given. A rush was made for the doors and those who sat nearest the stage were panic stricken. Half of the audience was composed of women and children and they occupied the seats in front. Many of the women fainted or were overcome by the smoke and had to be carried out. William Alexander, the doorkeeper, was standing at the entrance when those who were in the rear of the house came rushing out. The doors were torn from their hinges by the crowds that surged against them. In less than a minute the hall was emptied. Nearly 1000 people were assembled in the Haymarket theater, but they were dismissed at once through the alley way in good order.

The stock losses were distributed as follows: J. M. Snythe & Co., furniture, \$600,000; Mrs. La Berge, \$700; A. H. Pest, wall paper, \$36,000; Neely Bros., \$30,000; Patterson block, owned by Ellis & Shepard, \$25,000; Kohl & Middleton, dime museum, \$20,000; M. Innann, cigars, \$20,000; A. Keuplar, jewelry, \$15,000; Bar Bros., hats and caps, \$6000; A. Gerhardt, barber, shop, \$6000; total, \$862,000.

Insurance: J. M. Snythe, \$320,000; A. H. Pest, \$20,000; Neely Bros., \$20,000; Mrs. Berge, \$35,000; Kohl & Middleton, of the dime museum, allowed their policy to lapse and lost everything.

A Bad Fire in Elizabeth. ELIZABETH, N. J., April 13.—The Arcade building, the finest in the city, is burning. It contains the postoffice, district court, First National bank and many offices. The fire is spreading.

The fire was confined to the Clark building, but it was entirely destroyed. The loss is estimated at \$400,000.

HABITUÉS OF CHINATOWN.

Thirty-nine Women Found in Chinese Opium Den.

New York, April 13.—The police raided the Chinese quarter of Pell street infested with opium dens last night, and arrested thirty-nine young women and girls. One of them was recognized as a married woman who deserted her husband in Boston two months ago, and for whom the police had since been looking. Her husband will begin his pursuit in New York. The Chinese companion of the women scented the raid and most of them eluded the police, leaving the women, half dazed from the effects of the opium, to be taken into custody. The march to the station house attracted a large crowd of the denizens of Chinatown, who followed the police and their charges to within a safe distance of the station house when they returned to their lairs.

AT ROME.

Rudini Will Not Proceed to the Threatened Extremities.

ROME, April 13.—Up to noon today it has been impossible to learn anything further concerning the report that the Italian cabinet had decided to request the United States minister to leave Rome, in case no reply to Premier Rudini's last note is received from Secretary Blaine by tomorrow. Officials are reticent and journalists are unable to receive confirmation or denial. At the American legat in nothing is known. In well informed circles the prevailing opinion is that the premier will not proceed at all to extremes at this juncture.

Shot Himself.

Harry Klugues, mining boss of the Itasca Iron Mining company, while hunting near Grand Rapids yesterday, accidentally shot himself. The gun was heavily charged with fine shot and the entire charge tore through his right hand and lodged in his side. The shot was removed and Mr. Klugues is doing as well as can be expected.

C. H. Graves & Co. are offering special inducements to parties wishing to build in Edson.

WILL PROBABLY GO

The Women's Project for a City Police Matron may Succeed After all.

District Court has a Couple of interesting and Important Cases Today.

Iron Ore Trains Begin Running Today on the Duluth & Iron Range Road.

The matter of better accommodations and care for women prisoners at the city jail is creating considerable interest, and in spite of the damper recently thrown upon the efforts of the several women organizations looking toward the appointment of a police matron will not be down. It is perhaps due the city council to state that the refusal of the committee to recommend such an appointment was not done in any antagonistic spirit, but as the committee stated, such a project would be inexpedient owing to the unimproved condition of the city jail.

But the ladies, having done what they could, have excited interest in the project. Petitions are in circulation today and are said to be signed by nearly a hundred prominent taxpayers, looking toward a furtherance of the scheme. These petitions go to the root of the matter and ask that the department for women be completed and the appointment of a police matron follow in natural order. This morning Mayor Davis said he believed such a step necessary. "The present condition of affairs is a shame, and we ought to have some way to separate our male and female prisoners. I do not mean that they have been confined together, but as arrangements are at present they are only separated by grating of the cages." It will probably cost \$200 to furnish the room and prepare new city jail for the humane arrangement as prayed for in the petition, and it would seem that something might be done.

District Court.

In district court this morning the case of Trux v. Miller was given to the jury and a sealed verdict was returned late this afternoon. The action was brought by A. H. Trux, contractor of the excavator for the Lyceum. The defendant alleged that the work was not completed in the time specified so he withheld \$2000 as damages. The suit was for the recovery of \$2000.

A motion to amend in No. 85 was overruled and the case was taken up this afternoon.

In the case of A. A. Salter, charged with forgery, bail was fixed at \$1000. Salter will give bail this afternoon.

The case of Sarah White vs. M. Pastore is on trial this afternoon. The suit was brought on the grounds of defamation of character to the extent of \$4000. Some interesting evidence is expected.

This morning Judge Ensign issued an order dissolving an injunction brought by L. O. Grier against the city of Duluth. The injunction was issued to restrain Batchelor from tearing down a livery stable located on First street.

The Sand Fences.

The contractors are beginning the work of building the sand fences in the end of Minnesota Point, which work congress authorized in order to prevent the point from being blown away. The fences are about six feet apart and are five feet high, and between them are piled brush and stone. One of these structures will run along the point for a distance of 1000 feet between the old lighthouse and the Superior entry, while the other will be placed for a distance of 200 feet along the narrowest portion of the point some distance above the old lighthouse. Short fences will run out from each at right angles and on either side. The fences are calculated not only to keep sand from being blown away, but also to cause sand to accumulate on the point.

One Train Put in Service.

The Duluth & Iron Range road today put on two ore trains between Tower and Two Harbors. The ore will probably remain in the cars for a few days, in order that there may be no danger of its freezing in the pockets at the dock. There is no prospect that shipments from Two Harbors will begin before May 15. In 1889 and 1890 navigation opened early and the demand for ore was excellent; so that the first boat in each year arrived at Two Harbors on April 22. Previous to 1889 the first boat arrived just one month later. The railroad company has no doubt plans just now in regard to its ore train service, but it will probably increase the number of trains very slowly.

Cuts Out the Settlers.

The secretary of the Interior has rendered a decision that the lands in the "Omaha grant" will not be opened for filing until the 15th instant, and settlement on the 15th, and that former settlers upon the lands will not be considered as having any claim upon the land or advantage over others in any way. This decision has dampened the ardor of several Duluth individuals who have been awaiting on claims in this grant for weeks.

Capt. McDougall Returns.

Capt. McDougall has just returned from a brief trip to Cleveland. He says he has no news for publication in fact that there is nothing new. Cleveland shipbuilders are having a dull season which will probably continue for some time. He had little to say as to work, except by the opening of navigation the Steel Barge company would have seventeen vessels afloat and that everything looked bright for the company.

Another at Pittsburgh.

PITTSBURGH, April 13.—Fire at Thirty-third street destroyed Rollins Iron works and the Granite Roofing company's works adjoining. The loss was \$55,000; fully insured.

The Grip in New York.

New York, April 13.—There were forty deaths from grip in this city during the past forty-eight hours.

THE OUTLOOK.

One of very considerable experience in financial and railway matters writes in the Railway Age predicting a better year and a gradually improving business situation all over the country.

"Last fall," says he, "the Wall street traders, who always look a long way ahead, began selling the market on the short crops in America, and the threatening financial complications abroad, and notwithstanding that they were sneered at for their course, particularly as general trade was active and railway tonnage was heavy, they made money. They were told then that Wall street was the only blue spot in the country. Today the trade journals tell us that the conditions of general trade are not entirely satisfactory, and the railroads report in many instances a falling off in tonnage. Yet Wall street shows more activity and is apparently not afraid to buy railway securities."

Following the usual practice of discounting the future, these men have been looking forward, and they see conditions which must tell. They find the winter wheat crop both in area and condition eminently satisfactory, and they know that 60 per cent of the entire yield of wheat is of the winter variety. They find that spring wheat conditions were never better. They see the removal of the danger of adverse legislation and they know that before the legislatures are called together again the people will have been educated against the follies which demagogues have been advocating. They read of the disastrous failure of the crops of Europe, and they know that the foreign consumers will have to come to America for their supplies. They also know that this means not only higher prices for the product of the agriculturist, but plenty of traffic for the railways, and that these two conditions will do more toward curing adverse legislation than anything else.

They know that the foreign investor has learned a lesson in other countries, and that he will be induced by the prosperity of this land to seek it in the future when desirous of placing his money where it will be at least safe from political disturbances, and finally he sees honest efforts being made by the railway managers to conduct the property under their control economically, honestly and efficiently. These are some of the reasons which have made the bear of last fall the bull of this spring, and as he won then it is safe to predict that he will win now.

OVERLOOKING THE MAIN POINT.

The fact detailed elsewhere, that a settlement has been reached in the Lakeside street railway project and that the line will be built at once, is pleasing news and will aid in the development of the eastern part of the city and its lake-shore suburbs.

It is unfortunate that so pleasing a report cannot be made regarding the negotiations toward putting on better foundation the affairs of the incline railway and the Highland Improvement company. However necessary may be the development of the east and west lines of local communication, the project for improving the heights immediately back of the center of the city is, we heartily believe, still more vital to Duluth's progress.

Although it is realized that but a few

thousand dollars stand between success and failure, and that these few thousands are asked from property owners whose lands, valueless now except in expectation, will remain valueless for years if this road is not built, the sum needed is being raised slowly. There is, under the circumstances, nothing Duluth can do that will be of more benefit than to push this project and there are but few failures that can injure the city so much as a failure here.

THE BIRTH OF A NATION.

The declaration of a Commonwealth of Australia by the federation convention which has been in session at Sydney is virtually the birth of a new nation. The semblance of a connection with the mother country is kept up by provision for the appointment of a governor general by the queen, but the tie which holds the colonies to England is so slight and the hope of association so long that any such strain would snap it. The associations of the colonists are with each other rather than with England, and the necessity of their existence make it imperative that in the tariff, and in other matters of administration, there should be wide departures from the practices which they obtain in England.

Australia is large enough and strong enough to stand alone. She has a population larger than that of the United States when the Federal constitution was adopted, and leaving Alaska out of the comparison, she has an area larger than that of this country.

In the proceedings of the federation convention, there was manifest much the same jealousy of encroachments on the part of the central government that figured so prominently in the discussion in the convention which framed our own constitution. It was distinctly laid down that only such powers as were expressly surrendered by the colonies should be exercised by the federal government. The executive authority is vested in a ministry, which is dependent upon the support of the congress for its continuance in office. The national forces are to be under the federal control, and the constitution bears resemblance both to that of this country and of Canada.

The recent proposal to shorten the term of study necessary at Harvard to secure a degree has been the cause of a great deal of interest and not a little discussion among college men all over the country. We believe the fact that the university board of overseers has just expressed a decided disapproval of the proposed changes will be generally regarded with satisfaction. The action of the board of overseers may probably be regarded as final, and it shows that the demand for a shorter college course is not yet urgent enough to justify Harvard university in taking the lead in a measure that would result ultimately in a radical change in American collegiate methods. It is conceded that the honorary degrees conferred by American schools cannot be taken as representative of scholarship; A. B. stands for a performance of work in a certain time, and remains as a sign of scholarship attained by four years' training. The presence of specialization, which is fast destroying the desire for a general culture, may bring about the shortening of the college course, but the present action of the Harvard overseers is undoubtedly in accord with popular sentiment of the present.

M. Maseras, in an interesting letter to the New York Sun, says that the young emperor of Germany has one motive for reflection, which nevertheless furnishes an additional motive for irritation. The network of hostility with which Bismarck has surrounded France with such malignant ability is now, if not broken, greatly weakened. Austria has ceased to be Germany the servile ally that she was until quite lately. The conclusion of a treaty of commerce by which they hoped in Berlin to refasten the knot of the triple alliance is meeting with difficulties in Vienna which render the issue of the negotiations doubtful. And a still more notable fact is that the almost hostile coolness which existed in the relations of Austria and Russia has given way to understanding very much like the beginning of cordiality.

The wave of ballot reform has now swept over twenty-two states, the last to enact better laws as to voting being Maine. A bill is now before the New Hampshire senate, passed by the house, and the Granite Mountain state will probably be the twenty-third. Illinois will be, apparently, the twenty-fourth, when ballot reform will have carried nearly all Northern states. So far the South has not generally taken to the new systems, probably because a reformed ballot is not needed there.

The effort for complete separation of male and female city prisoners is still being made with better prospects of success than ever. There is no question that in the interest of morality and humanity, the separation should be made, and the ladies who are urging it deserve the thanks of the community for their work.

The payment of some \$150,000 to depositors by the assignees of Henry H. Bell today is having an excellent effect on the local situation. While the amount of money disbursed is not great it is so generally distributed and goes so universally to those who need it that it has loosened the pockets of many.

Today's dispatches from Europe are warlike. While we have been fed on war news from the other side for years, whenever wheat bulls felt a consuming desire to raise the price of wheat, there has not in many months been a time when the rumors of trouble were so well substantiated as now.

BOOKS MADE AND MAKING.

Book Buyer for April has an excellent assortment and interesting selection of English Fiction, literary topics and book notes are full of information.

Of English Fiction, "Little Book of Western Verse" and "Little Book of Profitable Tales" some 13,000 copies have been sold since their issue by Scribners three or four months ago. This is a remarkably creditable and satisfactory sale.

The fourth volume in "Hercules of the Nations" series, issued by Putnam's Sons, will be "Theodor the Great." The fifth volume, Sir Philip Sidney and the Chivalry of England, will be out in June. The third, "Pericles or the Golden Age of Athens," was out a few weeks ago. Of "The Story of the Nations" series the last volume is "Pericles or the Golden Age of Athens." All so far out of these most excellent series are in the public library, and the others will be added as fast as they appear.

Sara Jeanette Duncan, whose two books, lately published by Appleton, "A Social Departure" and "An American Girl in London," have made her quick fame, is a newspaper graduate, having done her first writing for the Toronto Globe, her last being in Brantford, Ontario. As a globe correspondent she made a visit to Honduras and New Orleans, and later undertook a tour with a Montreal friend, the unconventional journey around the world so prettily described in "A Social Departure."

John Fiske has supplemented the papers on the American Revolution which have appeared in the Atlantic Monthly the past year or two, and will publish them very soon in two volumes. Readers of the Atlantic do not need to be told how readable and how these books will be. A steel engraving of Washington will form the frontispiece to the first volume.

The life of Charles G. Finney, president of Oberlin, will be added to the series of "American Religious Leaders." It is written by the famous religious geologist, Professor George Fredrick Wright, of Oberlin.

Cassell Publishing company announces that it has completed arrangements with Mrs. Emilia Parke Hazan, a noted story writer of Spain, by which they become the authorized publishers of her books in English. Cassell's Blue Library will be inaugurated with a story by Mrs. Hazan, called "A Christian Woman."

The Cassell company has in press a humorous and romantic book by John Bell Bontion. It is "The Bachelor," an authentic account of the strange doings of the New England "bachelors."

"Recollections of President Lincoln and His Administration," by L. E. Chittenden, his register of the treasury was published April 7 by Harper & Brothers. Mr. Chittenden's reminiscences cover the entire period of the civil war. Macmillan & Co. will publish soon William Winter's new book, "Gray Days and Gold," and a new edition of his "Shakespeare's England," issued in uniform style.

Harper & Brothers will publish a popular edition in one volume of the "Journal of Sir Walter Scott."

Macmillan & Co. are getting out a cheaper edition of the most noted book of 1890, Bryce's "American Commonwealth." They are forced to do this by the piracy of the original edition by a Chicago publisher. While it is only a matter of local interest, the book is a masterpiece of good sense and common sense, and it is a pity that it should be pirated. The book is a masterpiece of good sense and common sense, and it is a pity that it should be pirated.

BEST NEIGHBORHOOD NEWS.

The Hinsdale Quarry.

Two Harbors Iron Works: John McGirr and Fred Bong, of New Brunswick, quarrymen and granite cutters, are now at work on the Hinsdale granite quarry. The depth of snow prevented more than a superficial examination except that portion which has been worked, but enough was seen to convince them that the stone is there in limitless quantities. Mr. McGirr is also satisfied that it is largely of a red formation. The output of the quarry, he states, is one of the best in the country. There is also several derricks, two hoisting engines, steam engines for drills, etc. The machinery exceeds that now used in the St. George quarries, or that in use here for the last eighteen years—which turns out stone for five factories employing an average of sixty persons each. There is also several good cement houses for laborers. This plant is now lying idle and going to ruin. He may possibly return later. And the conditions been such that he could have satisfied himself it is not improbable that he would have remained here and gone to work.

The St. Louis Dam.

Northern Pacific Junction Viaduct: Work on the dam has progressed rapidly and by seven or eight days, it is now the intention of Mr. McClure to have the work so nearly completed that any weather or water will not interfere. The digging of the canal for the brick manufactory is a work of magnitude, making speedy headway. There is no hesitancy in the management, and all the necessary work is being pushed along as rapidly as capital can force it.

Work on the foundation of the Hart shoe factory has been suspended because of wetness.

East Vermilion Operations.

Ely Times: The Union Iron company's diamond drill arrived last week and will be hauled out in a few days, when the boiler is also expected to arrive. No. 3 shaft of the Chandler mine is down 118 feet. Drifting was commenced Monday on the second level at a depth of 115 feet. Clearing the north forty has commenced.

Explorations will shortly be resumed on section 31 of 63-12, where the older Lonsford had formerly operated. The Zenith Mining company finished sinking the shaft last week, which is now 185 feet deep. The second level, 185 feet from the surface, was begun Saturday and is expected to go about forty-five feet north before striking the vein. The first level, 125 feet from the surface, is now twenty-five feet in point rock and will go about ten feet further before finding ore. Carpenters are now building pockets and doing other necessary work preparatory to shipping, which will commence May 15.

TEXAS FARM LANDS

At present valuation will make men rich during the year 1891. The most conservative admit the truth of this assertion.

It is now known that the first wheat land in the world was sold for \$1.00 per acre. It is now known that the first wheat land in the world was sold for \$1.00 per acre. It is now known that the first wheat land in the world was sold for \$1.00 per acre.

For North and West Texas
To as farmers have an enormous home market as well as
Twenty Thousand Miles of Railroad and Ocean Outlet for their surplus crop. Here farmers are able to get out of their hands every day in the year, and stock run on grass from January to January. Many farmers in Texas and in the north-west are selling whatever surplus they have in their farms, during the cheap season of Texas. And in many instances the price of the land is less than the price of the crop. This latest census shows that few farmers in the world are so rich as the farmers of Texas. The year school fund is the largest of any commonwealth in the world, supporting in each and every one of its millions of dollars. State taxes are ten cents on the hundred dollars.

We simply act as Agents in the Sale of Land. Consequently give the same attention to the interest of the buyer or investor as to the seller. We have now for sale good agricultural lands for from three to ten dollars per acre, according to location. These lands will double in value in three years. We can invest money in high grade real estate for from \$100 to \$500 per acre. We will make no charge for commissions from buyers or lenders of money. If you wish a farm or a corner or a piece of property, write to us. For worthy property a specialty. We refer by permission to the First National Bank, the City National Bank, the Merchants National Bank, all of Fort Worth, and the Fort Worth Chamber of Commerce. Correspondence Solicited.

NATIONAL WHIST CONGRESS.

MILWAUKEE, Wis., April 14.—The national whist congress was formally opened this afternoon. The congress originated with the Milwaukee club and has for its objects the organization of an association of American whist clubs, the adoption of a code of rules and the establishment of a series of international matches. Among the organizations represented are the Worcester, the Eastern (Pa.) club, the clubs of Indianapolis, Cincinnati, Princeton college, St. Paul, Minneapolis, Rockford, Aurora and Evanston. Chicago has a large contingent representing the Illinois, Wisconsin, Hyde Park university, Englewood, La Salle and other clubs. The total number of clubs represented is over fifty. Tonight there will be a series of matches between house and visiting delegations.

A Frisco Mystery.
SAN FRANCISCO, April 14.—About two weeks ago a woman, whose name is unknown, moved into a house at 1201 Western street, and yesterday her dead body was found in the cellar underneath the house. The body was covered with a heavy stone. On a photograph of the dead woman was found the name "Mrs. Balle, of Denver."

NEWS OVER SEA.

Striking English Weavers Appeal to the World; The Grip Grows Worse.

LONDON, April 14.—Dispatches received this morning from Bradford, Yorkshire, show that the trouble between the authorities and the striking weavers who yesterday met to protest against their being refused permission to go to work in the town hall square, and who were only dispersed after offering vicious and obscene resistance to the police and the military, has not yet ended. At an early hour this morning crowds of angry workmen gathered in the narrow streets. As the morning advanced the strikers in great numbers gathered about the place which they had selected for holding a meeting, and the possession of which they so fiercely contested with the police and soldiers yesterday. The workmen are in a dogged mood and seem disposed to still further press their right to hold their meeting. No overt act has occurred as yet, but the throwing of stones and the use of force by the police and the soldiers in the barracks the troops are kept constantly under arms. A number of arrests have been made. Later in the day the great sewing silk manufacturing firm of Lister & Co. decided not to submit to arbitration. Immediately upon the news of this decision a meeting of strikers was convened at which a committee was appointed and instructed to prepare an appeal to the weavers of the world, and to workmen generally.

GROWS WORSE.

The Grip is Reported More Severe in Europe.

LONDON, April 14.—Apprehension of a serious epidemic of influenza is caused by the fact that disease reappears in the north of England, where it was first discovered in 1889. Besides prevailing in an epidemic form, the disease exists throughout the whole of Yorkshire. At Hull the death rate has doubled during the past two weeks, and the significant increase is attributed to the presence of influenza. At Birmingham, while the outbreak is of a milder description and less widely spread, members of parliament are suffering from the malady. In Lincolnshire and several other counties the situation is much the same.

Influences has made its appearance in Paris. As yet but few cases have been reported, but a serious renewal of the malady is feared.

OF COURSE THEY CAN'T.

Italy Will be Totally Bankrupt After War.

ROME, April 14.—Senator Sarnacco, an expert in Italian finances, whose utterances always command much attention, writes to the Gazzetta Del Popolo declaring his opinion that the government's deficit is an illusory one. He alleges that Signor Nicotri, minister of the interior, has made insincere statements of the public finances, and that the extent of the deficit is terribly underrated. The article has had a dampening effect upon the spirits of the treasury, and Signor Nicotri has made his appearance in Paris. As yet but few cases have been reported, but a serious renewal of the malady is feared.

Sharp and Short With Parnell.
DUBLIN, April 14.—The National Press (anti-Parnellite organ), commenting on the interview on Saturday last with Timothy Harrington, during the course of which he expressed himself as being exceedingly well pleased with the decision of the executive committee of the Irish national league in Cincinnati, which suggested arbitration as offering a solution of the differences existing in the Irish parliamentary party, says: "The time for negotiations is past. The fight must now go on; it will be bitter, but it is not likely to be long."

More German Treaties.
PARIS, April 14.—The announcement is made that the German government has determined to conclude commercial treaties with Italy, Switzerland and Belgium, in addition to the treaty of commerce now in course of negotiation between Germany and Austria-Hungary. This action is interpreted to mean that Germany is attempting the formation of a customs coalition between the countries mentioned and herself which shall be hostile to the French republic.

Buying Less in Germany.
BERLIN, April 14.—It is shown by the report of the United States consulate here that there is a decrease in the exports from Northern Germany to the United States for the first quarter of 1891, of \$2,439,805 as compared with the exports during the corresponding quarter of 1890.

Cholera in the East.
CAIRO, April 14.—Trustworthy advices from Aleppo state that the cholera, a disease of apprehension throughout the East, and precautions are being urged upon various governments with a view to preventing the spread of the dreaded disease.

HARRISON'S HEAD.

The Republican President Corking up a Boom South of Mason and Dixon's.

His Presence in the Virginias is Enough to Turn a Doubtful State.

The Soo Road Sells a Big Issue of Bonds on the London Market.

ROANOKE, Va., April 14.—When the train bearing the presidential party arrived in Roanoke this morning a great crowd of people was waiting on the platform to receive it. As the train neared the city people stood along the tracks and cheered a welcome. The people on the platform were packed in a dense mass and outside the fence enclosing the tracks crowds gathered.

As the train came to a standstill, the President appeared on the rear platform and was greeted with cheers. Mrs. Harrison, Postmaster General Wanmaker, Mrs. McKee, Mrs. Russell Harrison and other ladies also stood on the platform and they appeared much amused at the efforts of the crowd to shake the President's hand. The President smiled and laughed as he reached down to shake the hand of a young girl who was clinging to the railing. Then a cry of "Speech!" was heard and the President, leaning on the railing of the platform, made a few remarks touching the increasing prosperity of Virginia. The speech was received with much enthusiasm, and as the train moved out of the station more cheers were given by the crowd.

PROCTOR REITERATES.
He Says, However, That He Will Accept the Senatorship.

WASHINGTON, April 14.—Since the return of Secretary Proctor there has been a great desire to obtain some statement from him concerning the rumor that he was about to resign for business reasons, and also whether or not he would consent to be a candidate for the United States senate to succeed Senator Edmunds. This afternoon in response to repeated inquiries he made the following statement: "All rumors that I have any present intention of resigning are without foundation. With respect to the senatorship, I find that a good many are anxious that I should succeed Senator Edmunds. Should the position be offered to me, my hearty approval and good will, I shall scarcely feel at liberty to decline. But the senatorship is not a thing to take effect until next November."

A NEW LOAN.

Soo Road Raises \$21,000,000 on the Montreal, April 14.—Considerable interest is manifested in Montreal financial circles over an issue brought out in London on Saturday of \$21,000,000 of 4 per cent. Minneapolis and Sault Ste. Marie bonds. The issue price brought 92. These bonds are to replace existing issues along the railway.

Violating Revenue Laws.
NEW YORK, April 14.—The revenue officers of the treasury raided the contraband cigar manufactory in the tenement house No. 49 Bowery, and arrested Neteau, Imperi and Antonio Sutor, who were engaged in making and packing cigars. The officers seized the paraphernalia and 40,000 unstamped cigars. Imperi and Sutor were held in \$1000 bail for examination.

Many Cattle Destroyed.
PITTSBURGH, April 14.—One hundred and thirty-seven head of cattle and three acres of sheds at the East Liberty stock yards were destroyed by fire at an early hour this morning. The origin of the fire is unknown. The loss will not exceed \$22,000, of which \$10,000 is credited to the sheds, the property of the Pennsylvania Railroad company, and the rest to the cattle. The cattle stampeded and rushed into the flames.

A Serious Blow at the Altou.
NEW YORK, April 14.—The action of the Trunk Line and Central Traffic association in ordering the Altou boycott, is sustained by the officers of the New York, Central, West Shore, Baltimore & Ohio, Pennsylvania and Erie railroads. These roads order every ticket and baggage agent, conductor and gateman in their employ to discontinue all connection with the Altou road after April 14.

Cane and Beet Root Combination.
SAN FRANCISCO, April 14.—A rumor is current here to the effect that the American and California sugar refineries are to combine under the title of the Western Sugar company, with J. D. Spreckels as president and Robert Oxnard as vice president, and that Claus Spreckels is about to retire and go to Europe. J. D. Spreckels, when asked about the report this morning, declined to make any statement.

A Green Cigarette Smoker.
ANDREWS, Ind., April 14.—George Stark, a foreman on the Cincinnati, Wash & Michigan railway, died last night in horrible agony. He was a cigarette smoker, and excessive use of them is said to have caused his death. A short time after his death his body turned a blue green. Physicians claim his death was due to arsenical and nicotine poison.

PEOPLE BY WIRE.
Jay Gould and party arrived at Pine Bluff, Ark., last evening. The party left early this morning for St. Louis.

Representative Francis B. Spinola, of New York, died at 1:20 a. m. at Washington.

The Brazilian minister of the interior, Gen. Roen, has resigned.

Being asked as to the disposition made of the famous diamond necklace which was presented to his sister, Mrs. Mathilde, Rev. Thomas Edwin Sherman today said: "That was divided into four parts by her father and given to her four daughters. It was given by the Khedive to father for services which he had rendered. As to the sale of any of them I would prefer to say nothing."

To Oust Governor Buckley.

NEW YORK, April 14.—Counsel for Judge Luzon E. Morris have finished the quo warranto papers with which they will begin to attempt to drive Morgan G. Buckley and his background of sheriffs out of the state capital. The papers will be presented today. If both sides agree to the facts the case will at once be taken to a higher court.

After reciting the events of the election, the papers state that the result was certified to the legislature and showed Morris to have a majority over all. The proceedings in the legislature are recited at length and the court is asked to require Buckley to show cause why he should not give up the office to Morris.

A British Bark Wrecked.
BALTIMORE, Md., April 14.—The British bark Strathmore, Capt. Urquhart, from Leobus de Afara to Hampton Roads for orders, stranded this morning, south of Cape Henry. The crew was rescued by the life saving crew.

A Lawyer Held.
BOWEN, April 14.—Lawyer Samuel M. Fairfield, who was arrested a few days ago for embezzling money from James R. Brewer, of Cleveland, was yesterday held in \$4000 for the superior criminal court.

CREGIER LOSSES.
The Mayor Loses Considerably in Several Wards and Will be Left.

CHICAGO, April 14.—This was the third day of the official election count. It will take the commissioner six more days to complete the canvass. Revision will then be necessary, disputes may arise, and from the hands of the commissioner the entire election may be transferred to the courts.

The Seventh and Eighth wards were canvassed today without any remonstrance on the part of the lawyers or the commissioners. In the official count of the Ninth ward Cregier sustained a material loss. In the seventh precinct of this ward the official returns show that Cregier lost 101 votes which were counted to the credit of Harrison. As Cregier's friends claim a majority of only 235 it will not take many more discoveries like this to melt it away. In the Sixth ward Cregier lost 20 votes. H. Washburn lost 5 and Harrison gained 1. Last night the count showed a net loss of 24 votes for Cregier and of 127 for Hempstead Washburn and a net gain of 57 for Elmer Washburn.

WARM TIME PROMISED.
Western Traffic Association Has a Snarl Before It.

CHICAGO, April 14.—The advisory board of the Western Traffic association assembled in secret session in the Rookery building this morning. An elaborate report has been prepared by the six commissioners of the association. It includes all the facts in the Missouri Pacific rate-cutting on sugar, but makes no recommendation. This will leave the responsibility for enforcing the Western agreement on the board itself.

Whether its members will have the backbone to have an encounter with Jay Gould is the question. In some circles it is said that if the board should attempt to discipline the Wizard, and under the agreement demand the discharge of the officials who cut the rates, it is pretty certain that there will be a tremendous fight, while it is not unlikely that Gould will attempt to wreck the association.

On the other hand, if the board manifests an inclination to lay the matter over without action, the Chicago & Northwestern, Rock Island and Atchafalpa, will be heard in vigorous protest, which may culminate in their withdrawal from the association.

Much depends upon whether Jay Gould will attend the meeting or not. In an interview at St. Louis a few days ago he said he would not come. His failure to attend would indicate that he has no further use for the association, and that it is his intention to do as he pleases and answer to nobody for his actions or those of his lieutenants.

Later—Mr. Gould was not present and adjournment was his until tomorrow. He has apparently decided to smash the Western Traffic association. Such is the general belief in railroad circles in this city today, and developments strongly point that way.

Only Ninety-Nine Left.
ST. LOUIS, April 14.—Society and business circles are stirred up over the disappearance, since Friday last, of Page McPherson, of the firm of McPherson, Switzer & Co., stock brokers. It is reported that McPherson's accounts are involved to the extent of \$20,000. There is no clew to his whereabouts. McPherson has posed as the leader of St. Louis "society's" 100, and his flight has caused a sensation in aristocratic circles.

Senator Ballingwall's Funeral.
OTTUMWA, Iowa, April 14.—All that is mortal of State Senator P. G. Ballingwall, the noted Iowa, founder of the town of Ottumwa, who died at sea near Hong Kong about a month ago, was laid to rest in the local cemetery this afternoon. The funeral services were a simple yet impressive. Governor Poes and his staff, together with the members of both branches of the legislature, were present. The eulogy was delivered by Senator W. W. Dodge.

A New Trial.
ALBANY, April 14.—William Wood, colored, who is under sentence of electrocution for the murder of another negro named Russin in New York city, has been granted a new trial by the court of appeals. Wood's case is also pending before the United States supreme court, having been argued there a few days ago together with that of Juglo, the Japanese murderer.

A Tragedy of Poverty.
NEW YORK, April 14.—The body of a man, crushed and mangled, was found lying on the tracks of the New York Central and Hudson River railroad in the tunnel between Fifty-fourth and Fifty-fifth streets this morning. He had been run over by a train. His clothing indicated poverty. It is supposed that he was homeless and went into the tunnel to sleep.

Is in no Especial Hurry.
NEW ORLEANS, April 14.—United States District Attorney Grant says he expects to send his report on the lynching of the Italian to the department of justice at Washington the latter part of this week.

For Harbor Fortifications.
ALBANY, April 14.—The assembly today passed a bill granting lands on Long Island to the United States by purchase for New York harbor fortifications.

ASKS FOR \$2500.

The Projected Red Lake Falls Railway Wants Help to Pay for Its Survey.

A Legal Fight Against Club Rooms in which the Police Are Victorious.

One Form of Sunday Saloons That Will Probably Not be Live Long.

About twenty-five prominent citizens assembled at the chamber of commerce this forenoon to discuss matters pertaining to the Duluth, Red Lake Falls & Northern road, the general manager of which, Mr. J. B. Holmes, was present. W. C. Sherwood was made chairman. It was stated that the road had just completed its survey and would need about \$2500 to pay for making profiles and arranging data, as well as to make up for a deficit that had accrued on the survey. Thirty-five hundred dollars have already been paid toward the survey. Mr. Holmes stated that he had been assured of aid to build the road from New York parties as soon as the data relating to the route could be laid before them in proper shape. J. D. Ray offered to give toward the necessary fund a lot at the corner of Tenth avenue east and Sixth street, valued at \$1700. It was decided to raise \$300 on the lot by selling nine shares in it at \$100 each. Some of those present at once pledged themselves to take a share. A committee headed by W. C. Sherwood was chosen to canvass the business men of the city for subscriptions to the fund.

Mr. Holmes, in answer to questions, gave considerable information regarding the plans of the company. He felt sure that the work of construction could be commenced by May and that considerable profit could be made by the time winter set in. He had built the Duluth & Manitoba, 104 miles long, between June and January, and he knew he could make a good showing again. When he built that road nobody knew anything about his plans until his walls were on the ground and he had begun grading. It was his original intention to use the Northern Pacific for thirty or forty miles out of Duluth, but he had learned of an existing entrance to the city by way of the east end, which would enable him to tap the iron districts, and the other end had been abandoned. The difficulties arising from the topography of the country he considered as nothing. The road was intended as a distinctly Duluth road.

THE CITY WINS.
"Club" Room Proprietors Fined for Violating Liquor Law.

Tally a victory for the police and a black eye for the saloon keeper! A large crowd assembled in the municipal court this morning to witness the trial before Judge Morris of Victor Berggren, who keeps a saloon at the corner of Lake avenue and Superior street, for an alleged sale of intoxicating liquors on Sunday, April 5, in room over the saloon occupied on the "club" plan in order to evade a law that is quite lenient. The witnesses for the state testified that they had seen on two different occasions and that on particular Sunday Berggren had sold liquor in these "club" rooms by bartenders of Berggren's. The defense set up the plea that the fact that Berggren's bartenders sold drinks there on Sunday did not implicate him, as he hired them simply to do lawless acts and the selling of liquor on Sunday was unlawful. The state showed by its witnesses that Mr. Berggren was himself in the rooms on that Sunday and the defense brought in two witnesses to testify that they had seen Mr. Berggren preparing that morning to take the train for some other city, from which the inference was to be drawn that he had actually left the city and could not have been in the "club" rooms in the evening of that day, as testified by the witnesses. Mr. Berggren, however, was not put on the stand to prove an alibi. The testimony was so strong and one-sided that Judge Morris after a short and explicit review of it, announced that he must find the defendant guilty. Believing that Berggren had not been convicted of a crime previous to this occasion, he imposed the minimum fine, which was \$30. This, with the costs, brought the whole fine up to \$47.08. The defendant was given a few hours to decide whether to pay the fine or make an appeal. It turns out that this is the second time that Berggren has been convicted of a violation of the law. City Attorney Allen conducted the prosecution and F. H. Cutting acted for the defense.

This afternoon was devoted by Judge Morris to similar cases brought against Jacob Stubler and E. P. Savage. Stubler was acquitted and Savage pleaded guilty. The latter's fine was placed at \$75, including costs, this being his second offense. Berggren decided to take an appeal.

For This Much, Thanks.
About 100 feet of the new water main to extend from the pump house into the lake is now completed and the work goes gradually on. It will take ten days or two weeks to complete the extension at the present rate. It was at first intended, say the gas and water company officials, to lay the intake before the ice goes out, but the recent warm weather has put an end to that plan. If the company meets with no delay it is probable that by May 1 Duluth citizens will be drinking water taken from the lake about 1000 feet farther out than at present.

A Club House on Trout Lake.
Lumber and other material is being bought for the erection of a club house on the shore of Trout lake, situated about five miles northeast of Grand Rapids. The house is being built for Judge W. C. of Cincinnati, and other Ohioans, and will be furnished with boats and all necessary paraphernalia. Trout lake is a beautiful sheet of water about five miles long by one wide, and is said to be full of fish. This will be the second club house in that locality.
